Regulation G: Adjusted EBITDA

The information presented herein regarding adjusted pro forma results does not conform to generally accepted accounting principles (GAAP) and should not be construed as an alternative to the reported results determined in accordance with GAAP. Management has included this non-GAAP information to assist in understanding the operating performance of the company and its segments. The non-GAAP information provided may not be consistent with the methodologies used by other companies. All non-GAAP information related to previous Ashland filings has been reconciled with reported GAAP results. Certain prior period adjusted pro forma results could not be reconciled to previous GAAP statements filed by Ashland since it relied upon pro forma information from Hercules Incorporated ("Hercules").

The unaudited adjusted pro forma results are presented for informational purposes only and do not reflect future events that may occur or any operating efficiencies or inefficiencies that may result from the acquisition of Hercules. Certain significant and identifiable cost allocation, reporting and accounting policy differences have been reflected in these adjusted pro forma results. However, these adjusted pro forma results do not purport to identify all these differences. Therefore, the unaudited adjusted pro forma results are not necessarily indicative of results that would have been achieved had the businesses been combined during the period presented or the results that Ashland will experience in the future. In addition, the preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting period. These estimates and assumptions can be significantly different depending on changes to conform to Ashland policy.
