Corporate Overview

- Founded in 1996
- Located in Hebei Province, about 60 miles south of Beijing and Tianjin
- Paper products:
 - Corrugating medium paper (“CMP”)
 - Offset printing paper
 - Digital photo paper
- Environmental-friendly producer— utilizing domestic recycled paper as primary raw material

Rapid Growth of China's Paper Industry

- China is currently ranked 2nd in the world in terms of output and consumption of paper and paperboard
- China is expected to become the world's largest paper making and consumption market by 2015
- Consumption is estimated to reach 140 million tons by 2015 and 200 million tons by 2020

Rising Per Capita Paper Consumption

- Strong growth in GDP per capita and manufacturing in China drives demand for paper product consumption
- China's per capita consumption of paper and paper board increased to 64 kgs in 2009 from 45 kgs in 2005 and compares to 2009 per capita consumption of 297 kgs in the United States

Industry Consolidation Benefits “Survivors”

- The PRC Gov’t has mandated the closure of small paper mills due to environmental protection (many of them using straw pulp) and operating efficiency concerns
- Gov’t-mandated closures of regional paper mills + growing market demand = rising average selling prices

Inefficient and Polluting Paper Production Capacities Eliminated† by the PRC Government in Year 2010, By Province*

Source: Ministry of Industry and Information Technology of the PRC, August 5, 2010

†: Total capacity elimination announced by the PRC government = 4.67 million tons

*: Showing the provinces with capacity elimination more than 100K tons in 2010

Well Positioned To Be A Regional Leader

- One of the largest regional paper companies in northern China
- Most paper production in China is concentrated in eastern and southern China
- Very few large paper producers in Beijing and Tianjin area
- Close proximity (60 miles) to Beijing and Tianjin provides access to ~50% of the Chinese printing and publishing industry and large consumer markets
- Easy access to a variety of long-term suppliers of locally recycled raw material
- Regional economic development in Beijing, Tianjin and vicinity creates more paper demand for industrial use

Advantage vs. Out-of-Province Competitors

- Lower logistic costs compared to out-of-province competitors
- Lower production costs because of lower transportation costs for procuring raw materials and coal
- Domestic recycled paper costs less than imported recycled paper

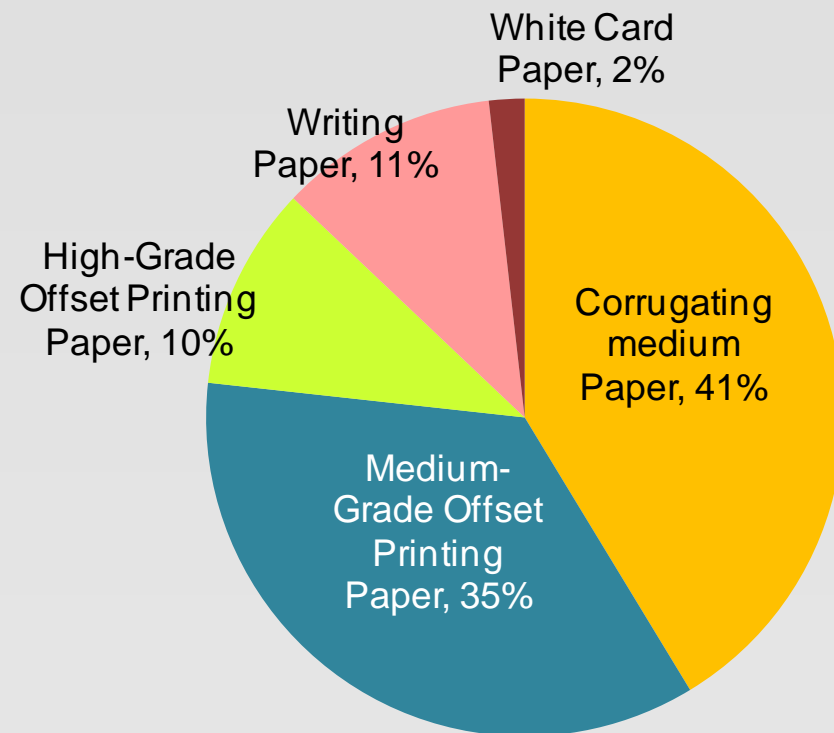

Diversified Product Portfolio

9 months 2010
Total Revenue: \$87.7 million

FY 2009
Total Revenue: \$102.4 million

Corrugating Medium Paper

- Used in the manufacturing of corrugated paperboard, boxes, etc.
- Products sold to packaging companies in northern China
- Use domestic recycled paperboard (or Old Corrugated Cardboard, “OCC”) as the only major raw material
- 16%-18% average gross profit margin

Corrugating Medium Paper Expansion

- Signed an equipment purchase agreement to build a new 360,000 tons corrugating medium paper production line for \$27.8MM in April 2010
- Total estimated cost for all new production facilities is \$40MM. Proceeds of April 2010 public offering (approximately \$26.9M) and internal cash reserve are financing the cost
- Will more than double existing CMP capacity; estimated launch of normal operation is 1Q 2011; projected production of up to 168,000 tons in 2011

Offset Printing Paper

- Used for offset printing, typically coated and brightened
- Major customers are printing/publishing companies in Beijing/Baoding
- Use recycled scrap paper from local printing stores and publisher warehouses as raw material
- 21-23% average gross profit margin

Digital Photo Paper

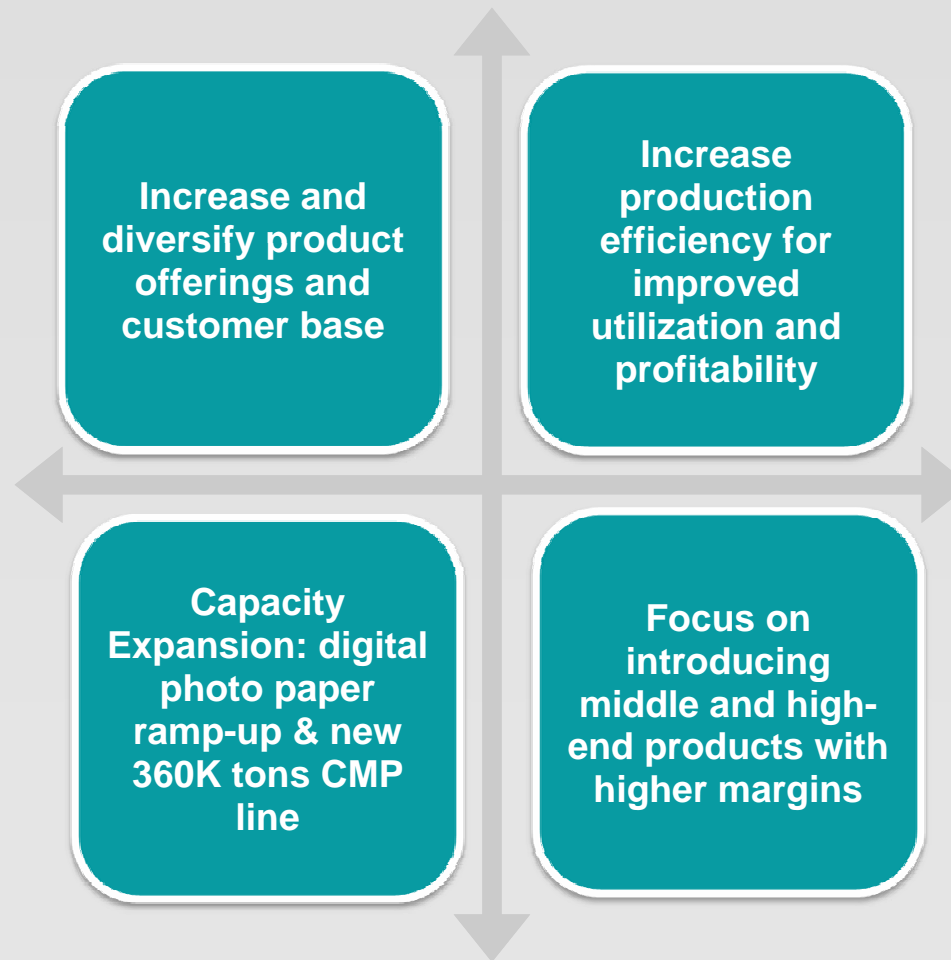

- Acquired 2 digital photo paper coating lines in Dec 2009 for RMB 93MM (\$13.7MM); paid for with financing proceeds (\$4.5MM) and cash from operations (\$9.2MM); accretive to gross profits and net earnings
- Officially launched production in March 2010
- Final product is semi-matte photo paper and glossy photo paper, sold to advertising companies and retail photo studios
- Currently operating at 86% of the originally estimated 2,500 tons/yr. capacity
- 38-40% average gross profit margin

Compelling Growth Strategy

Expand rapidly growing paper business in northern China by internal cash flow and debt financing
