Integrys Energy Group, Inc. Reports First Quarter 2012 Earnings

2012 Guidance Range for Diluted Earnings Per Share – Adjusted is \$3.35 to \$3.55, But Impact of First Quarter 2012 Adverse Weather Suggests Lower End of Range

Chicago – May 2, 2012 – Integrys Energy Group, Inc. (NYSE: TEG) recognized earnings on a Generally Accepted Accounting Principles (GAAP) basis and an adjusted basis as follows:

	Quarter End	ded March 31
	<u>2012</u>	<u>2011</u>
GAAP earnings (millions)	\$ 98.9	\$122.7
GAAP diluted earnings per share	\$ 1.25	\$ 1.56
Adjusted earnings (millions) *	\$122.8	\$123.6
Diluted earnings per share – adjusted *	\$ 1.55	\$ 1.57

Adjusted earnings exclude the effects of certain items that are not comparable from one period to the next.

First Quarter Results

On an adjusted basis, earnings were down slightly this quarter compared with the same quarter last year. Decoupling mechanisms in place at many of the utility companies greatly reduced the negative impact of unseasonably warm weather in 2012.

Integrys Energy Services' adjusted margins were down quarter-over-quarter, driving the decrease in consolidated adjusted earnings. Realized retail electric margins decreased due to the expiration at the end of 2011 of several large, lower margin customer contracts. In addition, energy asset margins decreased due to the expiration of a long-term capacity contract in the fourth quarter of 2011.

Media Hotline: 800-977-2250 — NYSE: TEG

130 East Randolph Drive Chicago, IL 60601

^{*} This news release includes non-GAAP financial measures. Schedules that provide details on these measures and reconcile these measures to the most comparable GAAP figures are included with this news release.

A slight decrease in electric utility segment margins also contributed to the decrease in adjusted earnings. Wholesale sales volumes were down due to the loss of several customers and a reduction in sales to one large customer. In addition, a net regulatory asset at Upper Peninsula Power Company was written off following a ruling in a Detroit Edison proceeding that stated the Michigan Public Service Commission did not have the authority to approve electric decoupling mechanisms.

The natural gas utility segment had an increase in adjusted earnings. The rate increase at The Peoples Gas Light and Coke Company had a positive impact. This was more than enough to overcome the impact of lower sales volumes net of decoupling across all the natural gas utilities caused by the unusually warm weather.

"Unseasonably warm winter weather impacted our earnings, but not as much as it might have without the decoupling mechanisms we have in place," said Charles A. Schrock, Chairman, President and Chief Executive Officer of Integrys Energy Group. "I am pleased that we are able to maintain our guidance range, although we expect that we may be toward the lower end of the range."

EARNINGS FORECAST

Integrys Energy Group's guidance range for 2012 diluted earnings per share on a GAAP basis is between \$3.38 and \$3.58. This guidance assumes operational improvements, the availability of generation units, and normal weather conditions for the rest of 2012.

The company's guidance range for 2012 diluted earnings per share – adjusted is between \$3.35 and \$3.55. Given the unseasonably warm weather in the first quarter of 2012, the lower end of this range is expected. At this time, Integrys Energy Group is not estimating the impact of derivative and inventory accounting activities and is not projecting any other special items for the remainder of 2012.

SUPPLEMENTAL DATA PACKAGE

A supplemental data package has been posted on Integrys Energy Group's website. It includes this news release, as well as financial statements, non-GAAP financial information, guidance information for diluted earnings per share, and quarterly financial information by reportable segment.

CONFERENCE CALL

An earnings conference call is scheduled for 8 a.m. Central time on Thursday, May 3, 2012. The call can be accessed 15 minutes prior to the scheduled start time by dialing 888-788-9425.

Callers will be required to supply EARNINGS as the passcode and MR. STEVEN ESCHBACH as the leader. A replay of the conference call will be available through August 7, 2012, by dialing 888-562-2788.

Investors may also listen to the live conference or a replay on Integrys Energy Group's website at http://www.integrysgroup.com/investor/presentations.aspx.

PowerPoint slides will be posted on the website and will be referred to within the prepared remarks during the call. The slides will be available at 6 a.m. Central time on May 3.

FORWARD-LOOKING STATEMENTS

Financial results in this news release are unaudited. In this news release, Integrys Energy Group makes statements concerning its expectations, beliefs, plans, objectives, goals, strategies, and future events or performance. These statements are "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are not guarantees of future results and conditions, but rather are subject to numerous management assumptions, risks, and uncertainties. Therefore, actual results may differ materially from those expressed or implied by these statements. Although Integrys Energy Group believes that these forward-looking statements and the underlying assumptions are reasonable, it cannot provide assurance that such statements will prove correct.

Forward-looking statements involve a number of risks and uncertainties. Some risks that could cause actual results to differ materially from those expressed or implied in forward-looking statements include those described in Item 1A of Integrys Energy Group's Annual Report on Form 10-K for the year ended December 31, 2011, as may be amended or supplemented in Part II, Item IA of its subsequently filed Quarterly Reports on Form 10-Q, and those identified below.

- The timing and resolution of rate cases and related negotiations, including recovery of deferred and current costs and the ability to earn a reasonable return on investment, and other regulatory decisions impacting the regulated businesses;
- Federal and state legislative and regulatory changes relating to the environment, including climate change and other environmental regulations impacting coal-fired generation facilities and renewable energy standards;
- Other federal and state legislative and regulatory changes, including deregulation and restructuring of the electric and natural gas utility industries, financial reform, health care reform, energy efficiency mandates, reliability standards, pipeline integrity and safety standards, and changes in tax and other laws and regulations to which Integrys Energy Group and its subsidiaries are subject;
- Costs and effects of litigation and administrative proceedings, settlements, investigations,

and claims, including manufactured gas plant site cleanup, third-party intervention in permitting and licensing projects, compliance with Clean Air Act requirements at generation plants, and prudence and reconciliation of costs recovered in revenues through automatic gas cost recovery mechanisms;

- Changes in credit ratings and interest rates caused by volatility in the financial markets and actions of rating agencies and their impact on Integrys Energy Group's and its subsidiaries' liquidity and financing efforts;
- The risks associated with changing commodity prices, particularly natural gas and electricity, and the available sources of fuel, natural gas, and purchased power, including their impact on margins, working capital, and liquidity requirements;
- The timing and outcome of any audits, disputes, and other proceedings related to taxes;
- The effects, extent, and timing of additional competition or regulation in the markets in which Integrys Energy Group's subsidiaries operate;
- The ability to retain market-based rate authority;
- The risk associated with the value of goodwill or other intangible assets and their possible impairment;
- The investment performance of employee benefit plan assets and related actuarial assumptions, which impact future funding requirements;
- The impact of unplanned facility outages;
- Changes in technology, particularly with respect to new, developing, or alternative sources of generation;
- The effects of political developments, as well as changes in economic conditions and the related impact on customer use, customer growth, and the ability to adequately forecast energy use for all of Integrys Energy Group's customers;
- Potential business strategies, including mergers, acquisitions, and construction or disposition of assets or businesses, which cannot be assured to be completed timely or within budgets;
- The risk of terrorism or cyber security attacks, including the associated costs to protect assets and respond to such events;
- The risk of failure to maintain the security of personally identifiable information, including the associated costs to notify affected persons and to mitigate their information security concerns;
- The effectiveness of risk management strategies, the use of financial and derivative instruments, and the related recovery of these costs from customers in rates;
- The risk of financial loss, including increases in bad debt expense, associated with the inability of Integrys Energy Group's and its subsidiaries' counterparties, affiliates, and customers to meet their obligations;
- Unusual weather and other natural phenomena, including related economic, operational, and/or other ancillary effects of any such events;
- The ability to use tax credit and loss carryforwards;

- The financial performance of American Transmission Company and its corresponding contribution to Integrys Energy Group's earnings;
- The effect of accounting pronouncements issued periodically by standard-setting bodies;
 and
- Other factors discussed in reports Integrys Energy Group files with the United States Securities and Exchange Commission.

Except to the extent required by the federal securities laws, Integrys Energy Group undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

About Integrys Energy Group, Inc.

Integrys Energy Group is a diversified energy holding company with regulated natural gas and electric utility operations (serving customers in Illinois, Michigan, Minnesota, and Wisconsin), an approximate 34% equity ownership interest in American Transmission Company (a federally regulated electric transmission company operating in Wisconsin, Michigan, Minnesota, and Illinois), and nonregulated energy operations.

Diluted Earnings Per Share Information – Non-GAAP Financial Information

We prepare financial statements in accordance with accounting principles generally accepted in the United States (GAAP). In addition, we disclose and discuss diluted earnings per share (EPS) – adjusted and adjusted earnings (loss), which are non-GAAP measures. Management uses these measures in its internal performance reporting and for reports to the Board of Directors. We disclose these measures in our quarterly earnings releases, on investor conference calls, and during investor conferences and related events. Management believes that diluted EPS – adjusted and adjusted earnings (loss) are useful measures for providing investors with additional insight into our operating performance. These measures allow investors to better compare our financial results from period to period, as they eliminate the effects of certain items that are not comparable. This additional information is not meant to be considered in isolation or as a substitute for our results of operations prepared and presented in conformance with GAAP.

Actual Quarter Results for Periods Ended March 31, 2012 and 2011

	Three Mont March

Holding company and other segment	(0.14)	(0.09)				
Diluted EPS	\$3.38	\$ 3.58				
Average Shares of Common Stock – Diluted (in millions)	79.3	79.3				

Information on Special Items:

Diluted earnings per share guidance is adjusted for special items and their financial impact on the diluted earnings per share guidance for 2012.

Diluted EPS	\$3.38	\$3.58
Special Items (net of taxes)		
Discontinued operations	(0.03)	(0.03)
Diluted EPS – adjusted	\$3.35	\$ 3.55
Average Shares of Common Stock – Diluted (in millions)	79.3	79.3

Key Assumptions for 2012:

- Operational improvements
- Availability of generation units
- Normal weather conditions for the rest of the year
 Not estimating the impact of derivative and inventory accounting activities and not projecting any other special items for the remainder of 2012.

The investment and non-investment grade categories are determined by publicly available credit ratings of the counterparty or the rating of any guarantor, whichever is higher. Investment grade counterparties are those with a senior unsecured Moody's rating of Baa3 or above or a Standard & Poor's rating of BBB- or above. Exposure before collateral considers netting of accounts receivable and accounts payable where netting agreements are in place as well as net mark to market exposure. Credit collateral includes cash and letters of credit from the counterparties. Net exposure does not include those counterparties to which Integrys Energy Services Inc. has exposure.
