## Management Commentary

At the close of the third quarter, the portable storage, portable buildings and freight container markets continue to achieve in line with expectations.

The 2012FY prospectus forecast anticipated rental contracts for two mining camps. To date one has been delivered in May 2011 and a further four are now on rent, with one camp being sold and delivered in the nine months year to date. There are forward orders for two hire and one sale camp delivery for the final quarter of 2012FY.

Royal Wolf has continued to invest substantially in the hire fleet in the third quarter to supply hire demand. Utilisation and pricing models remain consistent with historical performance.

Royal Wolf expects the 2012FY results to be at least in line with IPO prospectus.
