

NEWS RELEASE

FOR IMMEDIATE RELEASE

July 30, 2012

**CAPITOL FEDERAL FINANCIAL, INC.
REPORTS THIRD QUARTER 2012 RESULTS**

Topeka, KS - Capitol Federal Financial, Inc. (NASDAQ: CFFN) (the "Company") announced results today for the quarter ended June 30, 2012. Detailed results for the quarter will be available in the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2012, which will be filed with the Securities and Exchange Commission ("SEC") on or about August 3, 2012 and posted on our website, <http://ir.capfed.com>.

Highlights for the quarter include:

- net income of \$18.7 million,
- repurchased 7,459,209 shares of common stock at an average price of \$11.75 per share,
- basic and diluted earnings per share of \$0.12,
- net interest margin of 2.00%,
- paid dividends of \$11.9 million, and
- equity to total assets ratio of 19.5% at June 30, 2012.

Comparison of Operating Results for the Quarters Ended June 30, 2012 and March 31, 2012

For the quarter ended June 30, 2012, the Company recognized net income of \$18.7 million, compared to net income of \$19.3 million for the quarter ended March 31, 2012. The \$642 thousand, or 3.3%, decrease in net income was due primarily to a decrease in net interest income of \$1.3 million, or 2.7%, and an increase in other expenses of \$936 thousand, or 4.3%, partially offset by a decrease in the provision for credit losses of \$1.5 million.

The net interest margin decreased six basis points, from 2.06% for the prior quarter to 2.00% for the current quarter, due primarily to a decrease in the weighted average yield on loans, partially offset by a decrease in the cost of funds, specifically the certificate of deposit portfolio and Federal Home Loan Bank ("FHLB") advances.

Total interest and dividend income for the current quarter was \$80.6 million compared to \$83.3 million for the prior quarter. The \$2.7 million, or 3.2%, decrease was primarily a result of decreases in interest income on loans receivable and investment securities.

Interest income on loans receivable was \$57.5 million for the current quarter, compared to \$59.8 million for the prior quarter. The \$2.3 million, or 3.7%, decrease was due primarily to a 16 basis point decrease in the weighted average yield to 4.41% for the current quarter. The decrease in the weighted average yield was due to loan endorsements and refinances, along with originations and purchases at rates that were lower than the average rate of the existing loan portfolio.

Interest income on investment securities decreased \$332 thousand, or 8.1%, primarily due to an eight basis point decrease in the average yield to 1.23% for the current quarter. The decrease in the average yield was due primarily to a decrease in discount accretion on trust preferred securities as compared to the prior quarter, as well as to the maturity of securities late during the prior quarter with yields greater than the average yield on the existing portfolio.

Total interest expense decreased \$1.3 million, or 3.8%, to \$34.5 million for the current quarter from \$35.8 million for the prior quarter. The decrease in interest expense was due to a \$767 thousand, or 6.5%, decrease in interest expense on deposits, and to a \$584 thousand, or 2.9%, decrease in interest expense on FHLB advances.

Interest expense on deposits was \$11.1 million for the current quarter, compared to \$11.8 million for the prior quarter. The \$767 thousand decrease in interest expense on deposits was due primarily to a decrease of 11 basis points in the average rate paid on the certificate of deposit portfolio, from 1.64% for the prior quarter to 1.53% for the current quarter, as the portfolio continued to reprice to lower market rates. The average rate paid on total deposits decreased eight basis points, to 0.97%, during the quarter.

Total interest and dividend income for the current nine month period was \$248.7 million compared to \$260.3 million for the prior year nine month period. The \$11.6 million, or 4.4%, decrease was primarily a result of a decrease in interest income on loans receivable of \$11.9 million.

Interest income on loans receivable was \$178.0 million for the current nine month period, compared to \$189.9 for the prior year nine month period. The \$11.9 million, or 6.3%, decrease in interest income on loans receivable was the result of a 38 basis point decrease in the average yield to 4.55% for the current nine month period, slightly offset by an increase of \$76.8 million in the average balance of the portfolio. The decrease in the weighted average yield was due to a significant amount of loan endorsements and refinances at current market rates, along with originations and purchases at current market rates, which were lower than the average yield of the existing portfolio.

Interest income on mortgage-backed securities (“MBS”) was \$54.7 million for the current nine month period, compared to \$52.4 million for the prior year nine month period. The \$2.3 million increase in interest income on MBS was a result of a \$510.8 million increase in the average balance of the portfolio, partially offset by a decrease of 62 basis points in the weighted average yield to 2.96% for the current nine month period. The increase in the average balance was a result of purchases funded primarily by the proceeds from the corporate reorganization and partially from cash flows from the investment securities portfolio. The weighted average yield decreased between the two periods due to purchases of MBS at market rates which were at a lower average yield than the existing portfolio between the two periods.

Interest income on investment securities was \$12.5 million for the current nine month period, compared to \$14.6 million for the prior year nine month period. The \$2.1 million decrease was due to a decrease in the average balance of \$285.3 million, partially offset by an increase in the weighted average yield of five basis points to 1.29% for the current nine month period. The decrease in the average balance was due to calls and maturities not being replaced in their entirety; the cash flows were instead used to fund MBS purchases and repurchase common stock.

Interest expense decreased \$25.7 million, or 19.0%, to \$109.7 million for the current nine month period, from \$135.4 million for the prior year period. The decrease in interest expense was due to a decrease in interest expense on deposits of \$13.3 million, or 27.1%, other borrowings of \$7.4 million, or 39.4%, and FHLB advances of \$5.0 million, or 7.4%.

Interest expense on deposits decreased \$13.3 million to \$35.7 million for the current nine month period, from \$49.0 million for the prior year nine month period due primarily to a 42 basis point decrease in the average rate paid on the certificate of deposit portfolio, to 1.65%, as the portfolio continued to reprice to lower market rates, as well as a \$195.8 million decrease in the average balance of the portfolio. The decrease in the average balance was due primarily to a decrease in certificates with original term-to-maturity of 18 to 35 months, as well as the maturity and payout of one retail certificate of deposit related to a legal settlement to which the Bank was not a party. The decreases were partially offset by an increase in certificates with original term-to-maturity of 36 months or greater. Additionally, the average rate paid on all of our other categories of deposits decreased as well. The average rate paid on our money market portfolio decreased 22 basis points to an average rate of 0.33% for the current nine month period, and the savings portfolio decreased 35 basis points to an average rate of 0.17% for the current nine month period.

Interest expense on FHLB advances decreased \$5.0 million to \$62.6 million for the current nine month period, from \$67.6 million for the prior year nine month period due to a decrease of 45 basis points in the average rate paid, from 3.80% for the prior year nine month period to 3.35% for the current nine month period. The decrease in the average rate paid was due primarily to advances that were renewed/prepaid between the two period ends. The decrease in interest expense was partially offset by an increase of \$122.9 million in the average balance of FHLB advances as some maturing repurchase agreements were replaced with advances as the rates on the advances were more favorable than comparable repurchase agreements. Additionally, \$76.0 million of advances with a weighted average contractual rate of 5.31% matured and were not renewed.

Interest expense on other borrowings decreased \$7.4 million to \$11.4 million for the current nine month period, from \$18.8 million for the prior year nine month period due primarily to a \$245.4 million decrease in the average balance. The decrease in the average balance was due primarily to \$200.0 million of repurchase agreements maturing between periods, some of which were replaced with FHLB advances, and \$50.0 million of which was not replaced.

The Bank recorded a provision for credit losses of \$2.4 million in the prior year nine month period, compared to a provision for credit losses of \$2.0 million in the current nine month period. The provision for credit loss amount in the current nine month period was composed of the replenishment of allowance for credit losses (“ACL”) for \$1.0 million of charge-offs, primarily on bulk purchased loans, while the remaining \$1.0 million was primarily related to the increase in and/or establishment of ACL on new delinquent and classified loans and adjustments to the formula analysis model in the first quarter of the current fiscal year.

Total other expenses for the current nine month period were \$66.9 million, compared to \$109.3 million in the prior year nine month period. The \$42.4 million, or 38.8%, decrease was due primarily to a \$40.0 million cash contribution to the Foundation in connection with the corporate reorganization in December 2010. Other expenses, net decreased \$1.4 million, or 13.6%, primarily due to an impairment and valuation allowance taken on the mortgage-servicing rights asset in the prior year nine month period and a decrease in expenses related to OREO operations, net. Expenses related to OREO operations, net in the current nine month period was \$2.3 million compared to \$2.6 million in the prior year nine month period. Over the past 12 months, OREO properties were owned by the Bank, on average, for approximately six months before they were sold.

Income tax expense for the current nine month period was \$31.7 million compared to \$10.1 million in the prior year nine month period. The increase in income tax expense between the periods was primarily a result of the \$40.0 million contribution to the Foundation in the prior year nine month period, which resulted in \$14.0 million of income tax benefit, along with overall higher pretax income in the current period. The effective tax rate for the current nine month period was 35.8% compared to 31.8% in the prior year nine month period. The difference in the effective tax rate between periods was due primarily to a \$686 thousand tax return to tax provision adjustment in the prior year nine month period. Excluding that adjustment, the effective income tax rate would have been 34.0% for the prior year nine month period. Additionally, the effective tax rate in the prior year nine month period included higher deductible expenses that were associated with the Employee Stock Ownership Plan ("ESOP"), due to the new ESOP loan and the \$0.60 per share welcome dividend paid in March 2011.

⁽¹⁾Income allocated to participating securities (unvested restricted stock) was inconsequential for the three months ended March 31, 2012, and nine month ended June 30, 2011.

Financial Condition as of June 30, 2012

Assets

Total assets decreased \$30.2 million, from \$9.45 billion at September 30, 2011 to \$9.42 billion at June 30, 2012, due primarily to a \$150.3 million decrease in the securities portfolio, partially offset by an increase of \$60.3 million in loans receivable and an increase in cash and cash equivalents of \$51.9 million.

During the current fiscal year, the Company used proceeds from maturing investment securities to repurchase \$113.7 million, or 9,658,309 shares, of common stock. At June 30, 2012, the Company had \$274.9 million on deposit with the Bank and \$120.4 million in investment securities with a weighted average life (“WAL”) of 0.3 years.

The net loans receivable portfolio increased \$60.3 million, or at an annualized rate of 1.6%, to \$5.21 billion at June 30, 2012, from \$5.15 billion at September 30, 2011. The increase in loans receivable was due primarily to an increase in the one- to four-family portfolio as a result of originations and correspondent loan purchases.

The following table presents the principal balance of delinquent and non-performing loans, OREO and related ratios as of the dates presented. In accordance with the OCC Call Report requirements, troubled debt restructurings (“TDRs”) that were either nonaccrual or did not receive a credit evaluation prior to the restructuring and have not made six consecutive monthly payments per the restructured loan terms are reported as nonaccrual loans at June 30, 2012. This change occurred during the quarter ended March 31, 2012, as it was the first quarter the Bank was required to file a Call Report.

	<u>June 30, 2012</u>		<u>September 30, 2011</u>
		(Dollars in thousands)	
Loans 30 to 89 days delinquent	\$	23,775	\$ 26,760
Non-performing loans ⁽¹⁾		25,844	26,507
OREO		9,913	11,321
Non-performing loans to total loans		0.50 %	0.51 %
Non-performing assets to total assets		0.38 %	0.40 %

⁽¹⁾Included in the non-performing amount at June 30, 2012 are \$604 thousand of TDRs that are also reported in the 30 to 89 days delinquent category, and \$3.6 million that are currently performing in accordance with the restructured terms but have not made six consecutive monthly payments per the restructured loan terms.

Liabilities

Total liabilities increased \$76.5 million, from \$7.51 billion at September 30, 2011 to \$7.59 billion at June 30, 2012. The increase in total liabilities was due primarily a \$97.3 million increase in deposits. The increase in the deposit portfolio was led by a \$55.8 million increase in the checking portfolio and a \$32.9 million increase in the money market portfolio. Additionally, during the first quarter of fiscal year 2012, a \$150.0 million repurchase agreement matured and was replaced with a \$150.0 million fixed-rate FHLB advance, which accounts for the majority of the balance changes in both portfolios.

Stockholders' equity

Stockholders' equity decreased \$106.7 million, from \$1.94 billion at September 30, 2011 to \$1.83 billion at June 30, 2012. The decrease was due primarily to the repurchase of common stock for \$113.7 million and dividends paid of \$52.4 million, partially offset by net income of \$56.8 million.

The \$52.4 million of dividend payments consisted of three quarterly dividends totaling \$36.2 million and a special dividend of \$16.2 million related to fiscal year 2011 earnings, per the Company's dividend policy. Dividend payments depend upon a number of factors including the Company's financial condition and results of operations, the Bank's regulatory capital requirements, regulatory limitations on the Bank's ability to make capital distributions to the Company, and the amount of cash at the holding company. On July 20, 2012, the Company declared a quarterly cash dividend of \$0.075 per share, payable on August 17, 2012.

The following table presents the balance of stockholders' equity and related information as of the dates presented.

	<u>June 30, 2012</u>	<u>September 30, 2011</u>
	(Dollars in thousands)	
Stockholders' equity	\$ 1,832,858	\$ 1,939,529
Equity to total assets at end of period	19.5 %	20.5 %

The following table presents a reconciliation of total and net shares outstanding as of June 30, 2012.

Total shares outstanding	158,203,649
Less unallocated ESOP shares and unvested restricted stock	(5,509,694)
Net shares outstanding	<u>152,693,955</u>

In December 2011, the Company announced that the Board of Directors approved the repurchase of up to \$193.0 million of the Company's common stock. The Company began repurchasing common stock during the prior quarter and had repurchased 2,199,100 shares at an average price of \$11.85 per share through March 31, 2012. During the quarter ended June 30, 2012, the Company repurchased 7,459,209 shares at an average price of \$11.75 per share. Subsequent to June 30, 2012, the Company repurchased 610,712 shares at an average price of \$11.91 per share, bringing the total number of shares repurchased during fiscal year 2012 to 10,269,021, with an average price paid of \$11.78 per share.

During the current quarter, there were grants of stock options and restricted stock under the 2012 Equity Incentive Plan. The following table presents the future compensation expense expected to be recognized during each fiscal year presented as a result of grants during the current quarter.

<u>Fiscal Year</u>	<u>Stock Options</u>	<u>Restricted Stock</u>	<u>Total</u>

Regulatory Capital

Consistent with our goal to operate a sound and profitable financial institution, we actively seek to maintain a “well-capitalized” status for the Bank in accordance with regulatory standards. As of June 30, 2012, the Bank exceeded all regulatory capital requirements. The following table presents the Bank’s regulatory capital ratios at June 30, 2012 based upon regulatory guidelines.

	Bank Ratios	Regulatory Requirement For “Well-Capitalized” Status
Tier 1 (core) capital	14.6 %	5.0 %
Tier 1 (core) risk-based capital	37.7 %	6.0 %
Total risk-based capital	38.1 %	10.0 %

A reconciliation of the Bank’s equity under GAAP to regulatory capital amounts as of June 30, 2012 is as follows (dollars in thousands):

Total Bank equity as reported under GAAP	\$	1,379,455
Unrealized gains on AFS securities		(23,891)
Other		(77)
Total tangible and core capital		1,355,487
ACL		11,777
Total risk-based capital	\$	1,367,264

Capitol Federal Financial, Inc. is the holding company for Capitol Federal Savings Bank. Capitol Federal Savings Bank has 45 branch locations in Kansas and Missouri. Capitol Federal Savings Bank is one of the largest residential lenders in the State of Kansas. News and other information about the Company can be found on the Internet at the Bank’s website, <http://www.capfed.com>.

Except for the historical information contained in this press release, the matters discussed may be deemed to be forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that involve risks and uncertainties, including changes in economic conditions in the Company’s market area, changes in policies by regulatory agencies and other governmental initiatives affecting the financial services industry, fluctuations in interest rates, demand for loans in the Company’s market area, the future earnings and capital levels of Capitol Federal Savings Bank, which would affect the ability of the Capitol Federal Financial, Inc. to pay dividends in accordance with its dividend policies, competition, and other risks detailed from time to time in Capitol Federal Financial, Inc.’s SEC reports. Actual results in future periods may differ materially from those currently expected. These forward-looking statements represent Capitol Federal Financial, Inc.’s judgment as of the date of this release. Capitol Federal Financial, Inc. disclaims, however, any intent or obligation to update these forward-looking statements.

SUPPLEMENTAL FINANCIAL INFORMATION

Loan Portfolio

The following table presents information concerning the composition of our loan portfolio in dollar amounts and in percentages (before deductions for undisbursed loan funds, unearned loan fees and deferred costs, and the ACL) as of June 30, 2012.

	June 30, 2012		
	Amount	Average Rate	% of Total
	(Dollars in thousands)		
<u>Real Estate Loans:</u>			
One- to four-family	\$ 4,995,840	4.32 %	95.0 %
Multi-family and commercial	49,755	6.11	1.0
Construction	52,163	4.14	1.0
Total real estate loans	5,097,758	4.34	97.0
<u>Consumer Loans:</u>			
Home equity	152,301	5.43	2.9
Other	6,744	4.76	0.1
Total consumer loans	159,045	5.40	3.0
Total loans receivable	5,256,803	4.37 %	100.0 %
<u>Less:</u>			
Undisbursed loan funds	25,451		
ACL	11,777		
Discounts/unearned loan fees	21,246		
Premiums/deferred costs	(11,661)		
Total loans receivable, net	\$ 5,209,990		

The following table summarizes the activity in the loan portfolio for the periods indicated, excluding changes in loans in process, deferred fees, and ACL. Loans that were paid-off as a result of refinances are included in repayments. Loan endorsements are not included in the activity in the following table because a new loan is not generated at the time of the endorsement. The endorsed balance and rate are, however, included in the ending loan portfolio balance and rate.

⁽¹⁾Principal charge-offs, net represent potential loss amounts that reduce the unpaid principal balance of a loan.

⁽²⁾“Other” consists of transfers to OREO, endorsement fees advanced and reductions in commitments.

The following table presents the principal balance, weighted average credit score, loan-to-value (“LTV”) ratio, and the average principal balance for our one- to four-family loans at the dates presented. Credit scores are typically updated in the last month of the quarter and are obtained from a nationally recognized consumer rating agency. The LTV ratios were based on the current loan balance and either the lesser of the purchase price or original appraisal, or the most recent bank appraisal, broker price opinion or automated valuation model. In most cases, the most recent appraisal was obtained at the time of origination.

	<u>\$ 4,918,778</u>	760	65 %	\$ 137

Loan Originations

The following table presents loan origination, refinance, and purchase activity for the quarterly periods indicated, excluding endorsement activity. During the quarter, the Bank endorsed \$136.4 million of one-to four-family loans, which reduced the average rate on those loans 110 basis points. Effective during the quarter just completed, the Bank will no longer offer the option to advance the fee to endorse loans. It is likely that the Bank's new requirement to have the borrower pay the endorsement fee reduced the volume of endorsements during the quarter. One-to four-family endorsement volume was \$340.8 million for the quarter ended December 31, 2011, and \$230.3 million for the quarter ended March 31, 2012. Loan originations, purchases and refinances are reported together. The fixed-rate one- to four-family loans less than or equal to 15 years have an original maturity at origination of less than or equal to 15 years, while fixed-rate one- to four-family loans greater than 15 years have an original maturity at origination of greater than 15 years. The adjustable-rate one- to four-family loans less than or equal to 36 months have a term to first reset of less than or equal to 36 months at origination and adjustable-rate one- to four-family loans greater than 36 months have a term to first reset of greater than 36 months at origination.

Bulk purchases	--	--	--	--	--	--
	\$ 220,612	73 %	768	\$ 210,477	71 %	766

Total commitments to originate and purchase one- to four-family loans at June 30, 2012 were \$227.9 million, compared to \$136.2 million at March 31, 2012. The \$91.7 million increase in the commitments to originate and purchase amount was due primarily to a \$67.7 million increase in correspondent purchase loan commitments. This increase was due to the Bank offering more competitive rates to its correspondent lenders.

The following tables present the annualized prepayment speeds of our fixed-rate one- to four-family loan portfolio, including our fixed-rate one- to four-family construction and non-performing loans for the quarters ended June 30, 2012 and March 31, 2012. Loan refinances are considered a prepayment and are included in the prepayment speeds presented below. The annualized prepayment speeds are presented with and without endorsements.

Original Term	June 30, 2012

Asset Quality

In the following tables, correspondent purchased loans are included with originated loans and bulk purchased loans are reported as purchased loans. The following tables present loans 30 to 89 days delinquent, non-performing loans, and OREO at the dates indicated. Non-performing loans are nonaccrual loans that are 90 or more days delinquent, are in the process of foreclosure, or TDRs that were either nonaccrual or did not receive a credit evaluation prior to the restructuring and have not made six consecutive monthly payments per the restructured loan terms.

⁽¹⁾Included in the nonaccrual amount at June 30, 2012 are \$604 thousand of TDRs that are also reported in the 30 to 89 days delinquent category and \$3.6 million that are currently performing in accordance with the restructured terms but have not made six consecutive monthly payments per the restructured loan terms.

⁽²⁾Real estate related consumer loans where we also hold the first mortgage are included in the one- to four-family category as the underlying collateral is one- to four-family property.

⁽³⁾Other OREO represents a single property the Bank purchased for a potential branch site but now intends to sell.

The following table presents the activity for the ACL and related ratios at the dates and for the periods indicated. In January 2012, management implemented a loan charge-off policy as OCC Call Report requirements do not permit the use of SVAs, which the Bank was previously utilizing for potential loan losses, as permitted by our previous regulator. As a result of the implementation of the charge-off policy, \$3.5 million of SVAs were charged-off during the March 31, 2012 quarter, which are reflected in the activity for the nine months ended June 30, 2012. These charge-offs did not impact the provision for credit losses, and therefore had no additional income statement impact, as the amounts were expensed in previous periods.

Securities Portfolio

The following table presents the distribution of our MBS and investment securities portfolios, at amortized cost, at the dates indicated. The majority of the MBS and investment portfolios are composed of securities issued by the U.S. government sponsored enterprises (“GSEs”). The WAL is the estimated remaining maturity (in years) after projected prepayment speeds and projected call option assumptions have been applied. Yields on tax-exempt securities are not calculated on a taxable equivalent basis.

Borrowings

The following table presents the maturity of FHLB advances, at par, and repurchase agreements as of June 30, 2012. The balance of FHLB advances excludes the deferred gain on the terminated interest rate swaps and the deferred prepayment penalty.

Maturity by Fiscal year	FHLB Advances Amount	Repurchase Agreements Amount	Weighted Average Contractual Rate	Weighted Average Effective Rate ⁽¹⁾
	(Dollars in thousands)			
2012	\$ 100,000	\$ --	4.27 %	4.27 %
2013	325,000	145,000	3.68	4.06
2014	450,000	100,000	3.33	3.96
2015	600,000	20,000	1.73	1.97
2016	475,000	--	2.60	3.35
2017	400,000	--	3.17	3.21
2018	200,000	100,000	2.90	2.90
	\$ 2,550,000	\$ 365,000	2.89 %	3.25 %

⁽¹⁾The effective rate includes the net impact of the amortization of deferred prepayment penalties resulting from the prepayment of certain FHLB advances and deferred gains related to the termination of interest rate swaps.

The following table presents the maturity of borrowings and certificates of deposit, split between retail and public unit/brokered deposit amounts, for the next four quarters as of June 30, 2012.

Maturity by Quarter End	Borrowings Amount	Weighted Average Contractual Rate	Retail Certificate Amount	Weighted Average Contractual Rate	Public Unit/ Brokered Deposit Amount	Weighted Average Contractual Rate	Total	Weighted Average Contractual Rate
	(Dollars in thousands)							
September 30, 2012	\$ 100,000	4.27 %	\$ 307,891	1.31 %	\$ 100,772	0.15 %	\$ 508,663	1.66 %
December 31, 2012	100,000	3.06	265,028	1.05	38,042	0.22	403,070	1.47
March 31, 2013	50,000	3.48	253,479	1.20	20,042	0.36	323,521	1.50
June 30, 2013	250,000	3.81	239,903	1.29	22,057	2.02	511,960	2.55
	\$ 500,000	3.72 %	\$ 1,066,301	1.21 %	\$ 180,913	0.42 %	\$ 1,747,214	1.85 %

The following table presents FHLB advance and repurchase agreement activity for the periods presented. Line of credit activity is excluded from the following table due to the short-term nature of the borrowings. The effective rate includes the net impact of the amortization of deferred prepayment penalties resulting from the prepayment of certain FHLB advances and deferred gains related to the termination of interest rate swaps. Rates on new borrowings are fixed-rate. The weighted average maturity (“WAM”) is the remaining weighted average contractual term in years. The beginning and ending WAMs represent the remaining maturity at each date presented. For new borrowings, the WAMs presented are as of the date of issue.

Average Rates and Lives

The following table presents the weighted average yields/rates and WALs (in years) of our assets and liabilities as of June 30, 2012. Yields include the amortization of fees, costs, premiums and discounts which are considered adjustments to the yield.

	June 30, 2012		
	Amount	Yield/Rate (Dollars in thousands)	WAL
Investment securities ⁽¹⁾	\$ 1,195,589	1.23 %	0.9
MBS ⁽¹⁾	2,510,659	2.86	4.6
Loans receivable: ⁽²⁾			
Fixed-rate one- to four-family:			
<= 15 years	1,037,746	4.15	2.4
> 15 years	3,122,790	4.64	3.4
Adjustable-rate one- to four-family:			
<= 36 months	121,113	3.45	3.0
> 36 months	714,191	3.33	2.8
All other loans	260,963	5.28	1.5
Total loans receivable	5,256,803	4.37	3.0
Transaction deposits ⁽³⁾	1,969,569	0.21	6.8
Certificates of deposit	2,622,868	1.50	1.5
Borrowings ⁽⁴⁾	2,915,000	2.89	2.8

⁽¹⁾The WAL of investment securities and MBS is the estimated remaining maturity after projected prepayment speeds and projected call option assumptions have been applied.

⁽²⁾The WAL of the loans receivable portfolio is derived from a proprietary interest rate risk model, which takes into account prepayment speeds.

⁽³⁾The WAL of transactional (checking, savings, and money market) deposits is derived from a proprietary interest rate risk model and based upon historical analysis of decay rates on deposit accounts.

⁽⁴⁾Rate presented is contractual rate.

At June 30, 2012, the Bank's one-year gap between the amount of interest-earning assets and interest-bearing liabilities projected to reprice was \$1.53 billion, or 16.5% of total assets. If we experience the magnitude of asset repricing as indicated with the one-year gap, downward pressure may be placed on our net interest margin. Should interest rates rise, the amount of interest-earning assets expected to reprice will likely decrease from estimated levels as borrowers and agency debt issuers will have less economic incentive to modify their costs of borrowings. If interest rates were to increase 200 basis points, the Bank's one-year gap would be negative \$125.0 million, or (1.34)% of total assets. The change from a positive gap amount at June 30, 2012 to a negative gap amount in the +200 basis points scenario is due to a significant decrease in the amount of assets expected to reprice if rates were to increase 200 basis points. The amount of interest-bearing liabilities expected to reprice in a given period is not usually impacted by changes in interest rates because the Bank's borrowings and certificates of deposit portfolios have contractual maturities and generally cannot be terminated early without a prepayment penalty. The majority of interest-earning assets anticipated to reprice in the coming year are mortgages and MBS, both of which have the option to prepay without a fee paid by the contract holder. As interest rates decrease, borrowers have an economic incentive to refinance or endorse their loans to the lower market interest rates. This was evident by the volume of mortgages that were endorsed or refinanced during fiscal year 2011 and continuing into fiscal year 2012 as a result of the decrease in market interest rates. In addition, cash flows from the Bank's callable investment securities are anticipated to continue in the coming year as the issuers of these securities will likely exercise their option to call the securities in order to issue new debt securities at lower market rates. Any decrease in the net interest margin due to interest-earning assets repricing downward will likely be partially offset by a further decrease in our cost of funds.

Average Balance Sheet

The following tables present the average balances of our assets, liabilities and stockholders' equity and the related annualized yields and rates on our interest-earning assets and interest-bearing liabilities for the periods indicated and the weighted average yield/rate on our interest-earning assets and interest-bearing liabilities at June 30, 2012. Average yields are derived by dividing annualized income by the average balance of the related assets and average rates are derived by dividing annualized expense by the average balance of the related liabilities, for the periods shown. Average outstanding balances are derived from average daily balances. The yields and rates include amortization of fees, costs, premiums and discounts which are considered adjustments to yields/rates. Yields on tax-exempt securities were not calculated on a tax-equivalent basis.

(Concluded)

⁽¹⁾Calculated net of unearned loan fees and deferred costs, and undisbursed loan funds. Loans that are 90 or more days delinquent are included in the loans receivable average balance with a yield of zero percent. Balance includes mortgage LHFS.

⁽²⁾MBS and investment securities classified as AFS are stated at amortized cost, adjusted for unamortized purchase premiums or discounts.

⁽³⁾The average balance of investment securities includes an average balance of nontaxable securities of \$52.5 million and \$56.1 million for the quarters ended June 30, 2012 and March 31, 2012, respectively.

⁽⁴⁾The balance and rate of FHLB advances are stated net of deferred gains and deferred prepayment penalties.

⁽⁵⁾Net interest income represents the difference between interest income earned on interest-earning assets, such as loans, investment securities, and MBS, and interest paid on interest-bearing liabilities, such as deposits, FHLB advances, and other borrowings. Net interest income depends on the balance of interest-earning assets and interest-bearing liabilities, and the interest rates earned or paid on them.

⁽⁶⁾Net interest rate spread represents the difference between the average yield on interest-earning assets and the average cost of interest-bearing liabilities.

⁽⁷⁾Net interest margin represents net interest income as a percentage of average interest-earning assets.
