## PEOPLES BANCORP INC. REPORTS THE SECOND CONSECUTIVE QUARTER OF RECORD QUARTERLY NET INCOME

MARIETTA, Ohio - Peoples Bancorp Inc. ("Peoples") (NASDAQ: PEBO) today announced results for the quarter ended June 30, 2017. Net income totaled $\$ 9.8$ million for the second quarter of 2017, representing earnings per diluted common share of $\$ 0.53$. In comparison, earnings per diluted common share were $\$ 0.48$ for the first quarter of 2017 and $\$ 0.44$ for the second quarter of 2016.
"We generated our second consecutive quarter of record quarterly net income. Our efficiency ratio showed significant improvement, which illustrates the focus that has been given to generating positive operating leverage. Annualized return on average assets improved to $1.12 \%$ for the quarter, and we had a $12 \%$ annualized improvement in our tangible book value per share during the second quarter of 2017," said Chuck Sulerzyski, President and Chief Executive Officer. "We are pleased with our second quarter results, and intend to continue to build on the momentum of those results as we proceed into the second half of 2017. We believe that our continued focus on our customers by our dedicated employees is paying dividends and is the foundation of our recent results."

## Statement of Operations Highlights:

- Net interest income for the second quarter of 2017 increased 4\% compared to the linked quarter and 7\% compared to the second quarter of 2016.
- Net interest margin was $3.62 \%$ for the second quarter of 2017 , compared to $3.55 \%$ for the linked quarter and $3.57 \%$ for the second quarter of 2016.
- Provision for loan losses was $\$ 0.9$ million for the second quarter of 2017 and was impacted by the loan growth experienced during the quarter.
- Total fee-based income for the second quarter of 2017 grew $2 \%$ compared to the linked quarter and $10 \%$ compared to the second quarter of 2016.
- The growth during the second quarter of 2017 was muted by the reduction of $\$ 1.3$ million in annual performancebased insurance commissions that, for the most part, are recognized in the first quarter of each year.
- Total non-interest expense was $\$ 26.7$ million for the second quarter of 2017 , a decrease of $2 \%$ compared to the linked quarter and up only 1\% compared to the second quarter of 2016.
- The efficiency ratio was $61.2 \%$ for the second quarter of 2017, compared to $64.9 \%$ for the first quarter of 2017 and $65.1 \%$ in the second quarter of 2016.
- Generated positive operating leverage of $7 \%$ for the second quarter of 2017 compared to the second quarter of 2016.
- Total revenue, which is net interest income plus total fee-based income, grew $8 \%$ for the second quarter of 2017 compared to the second quarter of 2016, while total non-interest expense growth was only $1 \%$ for the same period, which resulted in positive operating leverage of $7 \%$.

## Balance Sheet Highlights:

- Period-end total loan balances at June 30, 2017 grew 8\%, on an annualized basis, compared to March 31, 2017 and 8\% compared to June 30, 2016.
- Indirect consumer loans at June 30, 2017 grew $\$ 22.4$ million, or $32 \%$ annualized, compared to March 31, 2017.
- Commercial loan balances grew \$31.8 million, or $10 \%$ annualized, at June 30, 2017 compared to March 31, 2017.

## - Asset quality improved during the quarter.

- Nonperforming assets decreased to $0.88 \%$ of total loans and other real estate owned ("OREO") at June 30, 2017 compared to $0.98 \%$ at March 31, 2017.
- Nonaccrual loans at June 30, 2017 decreased $\$ 1.4$ million, or 8\%, compared to March 31, 2017.
- Net charge-offs as a percent of average gross loans were $0.11 \%$ annualized for the second quarter of 2017.
- Classified loans, which are those categorized as substandard or doubtful, decreased $\$ 3.5$ million, or $6 \%$, at June 30, 2017 compared to March 31, 2017.
- At June 30, 2017, allowance for loan losses of $\$ 18.8$ million was up slightly compared to March 31, 2017, due primarily to loan growth experienced during the quarter.
- Period-end total deposit balances decreased \$25 million, or 1\%, at June 30, 2017 compared to March 31, 2017.
- Governmental deposit balances decreased $\$ 32.9$ million, or $10 \%$, during the second quarter of 2017 due primarily to seasonality.
- Non-interest-bearing deposits remained at 29\% of total deposits as of June 30, 2017.

## Net Interest Income:

Net interest income was $\$ 28.1$ million for the second quarter of 2017 , a $4 \%$ increase compared to the linked quarter and a $7 \%$ increase over the second quarter of 2016. Net interest margin increased to $3.62 \%$ for the second quarter of 2017, compared to $3.55 \%$ for the first quarter of 2017 and $3.57 \%$ for the second quarter of 2016 . For the first six months of 2017, net interest income grew $6 \%$ compared to 2016 , and net interest margin improved 3 basis points to $3.58 \%$. The increase in net interest income compared to all prior periods was due primarily to loan growth, with the increase in interest rates positively impacting the net interest margin as well.

The accretion income, net of amortization expense, from acquisitions was $\$ 0.7$ million for the second quarter of 2017, compared to $\$ 0.8$ million for the first quarter of 2017 and $\$ 0.9$ million for the second quarter of 2016, which added 10 basis points, 11 basis points and 12 basis points, respectively, to the net interest margin.

## Provision for Loan Losses:

The provision for loan losses was $\$ 0.9$ million for the second quarter of 2017 , compared to $\$ 0.6$ million for the first quarter of 2017 and $\$ 0.7$ million for the second quarter of 2016. The higher provision for loan losses recorded during the second quarter of 2017 was reflective of the growth in loan balances during the quarter. For the first six months of 2017, provision for loan losses was $\$ 1.6$ million, compared to $\$ 1.7$ million for the first six months of 2016.

## Fee-based Income:

Total fee-based income increased $\$ 0.3$ million, or $2 \%$, compared to the linked quarter, and grew $\$ 1.2$ million, or $10 \%$, compared to the second quarter of 2016. The increase compared to the first quarter of 2017 was muted by the decrease in insurance income, which was largely the result of a reduction of $\$ 1.3$ million in annual performance-based insurance commissions that, for the most part, are recognized in the first quarter of each year. Commercial loan swap fee income was $\$ 651,000$ for the second quarter of 2017 , which was over $\$ 380,000$ more than the linked quarter and the second quarter of 2016. Trust and investment income increased $11 \%$ compared to the linked quarter and $7 \%$ compared to the second quarter of 2016. The increase in other income was impacted by the sale of the government guaranteed portion of a loan for $\$ 437,000$ in the second quarter of 2017. Bank owned life insurance income increased $\$ 243,000$ compared to the second quarter of 2016 due to the $\$ 35$ million of polices that were purchased late in the second quarter of 2016. The increases compared to the second quarter of 2016 were partially offset by a decline in deposit account service charges, which was largely the result of a decrease in overdraft fees.

For the first six months of 2017, total fee-based income grew $\$ 1.5$ million, or $6 \%$, compared to 2016. The increase compared to the first six months of 2016 was mainly the result of growth in a number of categories. Bank owned life insurance income increased $\$ 569,000$, trust and investment income increased $\$ 501,000$, commercial loan swap fee income increased $\$ 491,000$, and mortgage banking income increased $\$ 429,000$. The increases were partially offset by declines in deposit account service charges of $9 \%$ and insurance income of $4 \%$.

## Non-interest Expense:

Total non-interest expense for the second quarter of 2017 was $\$ 26.7$ million, compared to $\$ 27.3$ million for the first quarter of 2017 and $\$ 26.5$ million for the second quarter of 2016 , resulting in a decrease of $2 \%$ compared to the linked quarter and an increase of $1 \%$ compared to the second quarter of 2016 . The decline compared to the linked quarter was largely the result of decreased salaries and employee benefit costs, which were down $\$ 447,000$, or $3 \%$. Salaries and employee benefit costs decreased mainly due to lower health insurance costs, lower base salaries and wages, and associated payroll taxes. The decrease in health insurance costs was due to lower claims, while the decrease in base
salaries and wages, and associated payroll taxes, was due to the continued focus on expense management. The decreases were partially offset by an increase in incentive compensation, which is tied to business performance. The increase compared to the second quarter of 2016 was primarily the result of an increase in incentive compensation, which was partially offset by a decrease in professional fees.

For the first six months of 2017 , total non-interest expense increased $\$ 1.2$ million, or $2 \%$. The increase was primarily the result of an increase in incentive compensation. The improved financial results of the company and increased production for the first six months of 2017 compared to the first six months of 2016 have resulted in higher incentive compensation.

The efficiency ratio for the second quarter of 2017 was $61.2 \%$, compared to $64.9 \%$ for the linked quarter and $65.1 \%$ for the second quarter of 2016. For the first six months of 2017, the efficiency ratio was $63.0 \%$, compared to $64.7 \%$ for the first six months of 2016.

## Loans:

Period-end total loan balances at June 30, 2017 increased $\$ 44.9$ million, or $8 \%$ annualized, compared to March 31, 2017. Indirect consumer lending continued to be a key component of loan growth, as balances increased $\$ 22.4$ million, or $32 \%$ annualized, during the quarter. The growth in indirect consumer lending included continued diversification in the portfolio beyond automobile loans, including loans for recreational vehicles and motorcycles. Commercial loans grew $\$ 31.8$ million, or $10 \%$ annualized, with commercial real estate loans growing $\$ 29.0$ million, or $14 \%$ annualized, during the quarter. From a bank regulatory perspective, non-owner-occupied commercial real estate loan balances as of June 30, 2017 remained well below the guidance from the regulators of financial institutions of $300 \%$ of total risk-based capital. The ratio at June 30, 2017 of non-owner-occupied commercial real estate loans to total risk-based capital was $162 \%$, compared to $152 \%$ as of March 31, 2017.

Compared to December 31, 2016, period-end loan balances at June 30, 2017 increased $\$ 69.4$ million, or 6\% annualized. Indirect consumer loan balances increased $\$ 53.3$ million, or $42 \%$ annualized. Commercial real estate loans grew $\$ 31.6$ million, or $8 \%$ annualized, for the first six months of 2017.

At June 30, 2017, period-end loan balances increased $\$ 165.6$ million, or $8 \%$, compared to June 30,2016 . The increase was primarily the result of indirect consumer lending contributing loan growth of $\$ 99.0$ million, or $48 \%$, compared to June 30 , 2016. Commercial loan balances grew $\$ 107.6$ million, or $9 \%$, from June 30 , 2016, with the growth almost evenly split between commercial real estate and commercial and industrial loan balances. At June 30, 2017, indirect consumer loan balances comprised $13 \%$ of the total loan portfolio, compared to $13 \%, 11 \%$ and $10 \%$ at March 31, 2017, December 31, 2016 and June 30, 2016, respectively.

Quarterly average gross loan balances increased $\$ 27.4$ million, or $5 \%$ annualized, compared to the linked quarter. The quarterly average gross loan balances for both the three and six months ended June 30, 2017 grew $7 \%$ compared to the same periods in 2016.

## Asset Quality:

Asset quality metrics improved during the second quarter of 2017. Nonperforming assets as a percent of total loans and OREO decreased to $0.88 \%$ at June 30, 2017, compared to $0.98 \%$ at March 31, 2017 and $1.04 \%$ at June 30, 2016.

Annualized net charge-offs were $0.11 \%$ of average gross loans during the first and second quarter of 2017, compared to $0.03 \%$ in the second quarter of 2016. For the first six months of 2017 , annualized net charge-offs were $0.11 \%$, compared to $0.06 \%$ for the first six months of 2016.

Classified loans, which are those categorized as substandard or doubtful, decreased $\$ 3.5$ million, or $6 \%$, compared to March 31, 2017 and increased $\$ 1.3$ million, or 2\%, compared to June 30, 2016. As a percent of total loans, classified loans were $2.31 \%$ at June 30, 2017, compared to $2.51 \%$ at March 31, 2017 and $2.43 \%$ at June 30, 2016. Criticized loans, which are those categorized as special mention, substandard or doubtful, increased $\$ 10.2$ million, or $10 \%$, compared to March 31, 2017 and increased $\$ 4.9$ million, or $5 \%$, compared to June 30, 2016. As a percent of total loans, criticized loans were $4.86 \%$ at June 30, 2017, compared to $4.50 \%$ at March 31, 2017 and $5.01 \%$ at June 30, 2016. The increase in criticized loans at June 30, 2017, compared to March 31, 2017, was due primarily to two commercial loan relationships being downgraded to special mention status during the quarter.

At June 30, 2017, the allowance for loan losses increased to $\$ 18.8$ million, compared to $\$ 18.5$ million at March 31, 2017 , and $\$ 17.8$ million at June 30, 2016. The ratio of the allowance for loan losses as a percent of total loans was $0.82 \%$ at both June 30, 2017 and March 31, 2017, compared to $0.84 \%$ at June 30, 2016. The ratio includes total acquired loans of $\$ 463.7$ million and allowance for acquired loan losses of $\$ 0.1$ million. The continued decline in the ratio was due to the continued improvement in asset quality metrics.

## Deposits:

As of June 30, 2017, period-end deposits declined $\$ 25.0$ million, or $1 \%$, compared to March 31, 2017, and increased $\$ 167.4$ million, or $7 \%$, compared to December 31, 2016. The decrease compared to March 31, 2017 was split almost evenly between non-interest-bearing and interest-bearing deposits. The decline in non-interest-bearing deposits was due primarily to one commercial customer having a higher than normal balance in their account as of March 31, 2017, which was reduced during the second quarter of 2017. The decline in interest-bearing deposits was driven by a reduction in governmental deposits of $\$ 32.9$ million, which was partially offset by increases in interest-bearing demand accounts and money market deposits. Balances in governmental deposits are seasonally higher in the first quarter of each year compared to the other quarters.

The increase in period-end deposit balances compared to December 31, 2016 was primarily due to an increase of $\$ 70.9$ million in brokered certificates of deposit, $\$ 45.9$ million in governmental deposits and $\$ 37.6$ million in non-interestbearing deposits. The increase in brokered certificates of deposit was the result of adding relatively shorter term funding on the balance sheet. The increase in non-interest-bearing deposits was due primarily to two commercial customers maintaining higher than usual balances as of June 30, 2017.

Period-end deposits increased $\$ 144.2$ million, or $6 \%$, compared to June 30, 2016, with the increase split almost evenly between non-interest-bearing and interest-bearing deposits, with growth of $\$ 72.4$ million and $\$ 71.8$ million, respectively. Almost $35 \%$ of the total increase in non-interest-bearing deposits was due to an increase for one commercial customer, with the remaining increase attributable to increases for both commercial and individual customers, with no significant change in any one deposit account. The growth in interest-bearing deposits was due primarily to an increase of $\$ 73.3$ million in brokered certificates of deposit and $\$ 51.4$ million in interest-bearing demand accounts, which were partially offset by a decrease of $\$ 49.3$ million in retail certificates of deposit.

Average deposits for the second quarter of 2017 increased $\$ 75.6$ million, or $3 \%$, compared to the linked quarter, with an increase of $\$ 64.6$ million in interest-bearing deposits and $\$ 11.0$ million in non-interest-bearing deposits. The increase in interest-bearing deposits was due primarily to an increase in brokered certificates of deposit and governmental deposits. Compared to the second quarter of 2016, average deposits increased $\$ 90.0$ million, or $3 \%$, with interest-bearing deposits increasing $\$ 46.7$ million and non-interest-bearing deposits increasing $\$ 43.3$ million. The increase in interest-bearing deposits was due primarily to an increase in brokered certificates of deposit, which was largely offset by a decrease in retail certificates of deposit, and an increase in interest-bearing demand accounts.

For the first six months of 2017, average deposits increased $\$ 58.0$ million, or $2 \%$, compared to the first six months of 2016. The increase was primarily due to an increase of $\$ 45.8$ million, or $6 \%$, in non-interest bearing deposits.

Non-interest-bearing deposits comprised 29\% of total deposits at June 30, 2017, March 31, 2017 and December 31, 2016, compared to $28 \%$ at June 30, 2016.

## Stockholders' Equity:

At June 30, 2017, the tier 1 risk-based capital ratio was $13.47 \%$, compared to $13.34 \%$ at March 31, 2017 and $13.33 \%$ at June 30, 2016. The total risk-based capital ratio was $14.40 \%$ at June 30, 2017, compared to $14.27 \%$ at March 31, 2017 and $14.23 \%$ at June 30 , 2016. The improvement in these capital ratios compared to the linked quarter was due mainly to increased earnings, which exceeded the dividends declared and paid during the quarter by $\$ 6.1$ million.

## Use of Non-GAAP Financial Measures

This news release contains financial information and performance measures determined by methods other than in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Management uses these "non-GAAP" financial measures in its analysis of Peoples' performance and the efficiency of its operations. Management believes that these non-GAAP financial measures provide a greater understanding of ongoing operations and enhance comparability of results with prior periods and peers. These disclosures should not be viewed as substitutes for financial measures determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Below is a listing of the non-GAAP financial measures used in this news release:

- Core non-interest expenses are non-GAAP since they exclude the impact of costs associated with the system upgrade of Peoples' core banking system, acquisition-related costs, pension settlement charges, severance charges and legal settlement charges.
- Efficiency ratio is calculated as total non-interest expense (less amortization of other intangible assets) as a percentage of fully tax-equivalent net interest income plus total fee-based income. This measure is non-GAAP since it excludes amortization of other intangible assets and all gains and/or losses included in earnings, and uses fully tax-equivalent net interest income.
- Tangible assets, tangible equity and tangible book value per common share measures are non-GAAP since they exclude the impact of goodwill and other intangible assets acquired through acquisitions on both total stockholders' equity and total assets.
- Pre-provision net revenue is defined as net interest income plus total fee-based income minus total non-interest expense. This measure is non-GAAP since it excludes the provision for (recovery of) loan losses and all gains and/or losses included in earnings.
- Return on tangible stockholders' equity is calculated as net income (less after-tax impact of amortization of other intangible assets) divided by tangible stockholders' equity. This measure is non-GAAP since it excludes the after-tax impact of amortization of other intangible assets from earnings and the impact of goodwill and other intangible assets acquired through acquisitions on total stockholders' equity.
A reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures is included at the end of this news release under the caption of "Non-GAAP Financial Measures".

These forward-looking statements are identified by the fact they are not historical facts and include words such as "anticipate," "estimate," "may," "feel," "expect," "believe," "plan," "will," "would," "should," "could" and similar expressions.

These forward-looking statements reflect management's current expectations based on all information available to management and its knowledge of Peoples' business and operations. Additionally, Peoples' financial condition, results of operations, plans, objectives, future performance and business are subject to risks and uncertainties that may cause actual results to differ materially. These factors include, but are not limited to:
(1) the success, impact, and timing of the implementation of Peoples' business strategies, including the successful integration of acquisitions and the expansion of consumer lending activity;
(2) competitive pressures among financial institutions or from non-financial institutions which may increase significantly, including product and pricing pressures, changes to third-party relationships and revenues, and Peoples' ability to attract, develop and retain qualified professionals;
(3) changes in the interest rate environment due to economic conditions and/or the fiscal policies of the United States ("U.S.") government and the Board of Governors of the Federal Reserve System (the "Federal Reserve Board"), which may adversely impact interest rates, interest margins, loan demand and interest rate sensitivity;
(4) uncertainty regarding the nature, timing and effect of legislative or regulatory changes or actions, promulgated and to be promulgated by governmental and regulatory agencies in the State of Ohio, the Federal Deposit Insurance Corporation, the Federal Reserve Board and the Consumer Financial Protection Bureau, which may subject Peoples, its subsidiaries, or one or more acquired companies to a variety of new and more stringent legal and regulatory requirements which adversely affect their respective businesses, including in particular the rules and regulations promulgated and to be promulgated under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, and the Basel III regulatory capital reform;
(5) changes in policy and other regulatory and legal developments accompanying the current presidential administration and uncertainty or speculation pending the enactment of such changes;
(6) Peoples' ability to leverage the core banking systems upgrade that occurred in the fourth quarter of 2016 (including the related core operating systems, data systems and products) without complications or difficulties that may otherwise result in the loss of customers, operational problems or one-time costs currently not anticipated to arise in connection with such upgrade;
(7) local, regional, national and international economic conditions and the impact these conditions may have on Peoples, its customers and its counterparties, and Peoples' assessment of the impact, which may be different than anticipated;
(8) Peoples' ability to integrate any future acquisitions which may be unsuccessful, or may be more difficult, timeconsuming or costly than expected;
(9) Peoples may issue equity securities in connection with future acquisitions, which could cause ownership and economic dilution to Peoples' current shareholders;
(10) changes in prepayment speeds, loan originations, levels of nonperforming assets, delinquent loans and chargeoffs, which may be less favorable than expected and adversely impact the amount of interest income generated;
(11) adverse changes in the economic conditions and/or activities, including, but not limited to, continued economic uncertainty in the U.S., the European Union (including the uncertainty surrounding the actions to be taken to implement the referendum by British voters to exit the European Union), Asia, and other areas, which could decrease sales volumes, add volatility to the global stock markets, and increase loan delinquencies and defaults;
(12) deterioration in the credit quality of Peoples' loan portfolio, which may adversely impact the provision for loan losses;
(13) changes in accounting standards, policies, estimates or procedures which may adversely affect Peoples' reported financial condition or results of operations;
(14) Peoples' assumptions and estimates used in applying critical accounting policies, which may prove unreliable, inaccurate or not predictive of actual results;
(15) adverse changes in the conditions and trends in the financial markets, including political developments, which may adversely affect the fair value of securities within Peoples' investment portfolio, the interest rate sensitivity of Peoples' consolidated balance sheet, and the income generated by Peoples' trust and investment activities;
(16) Peoples' ability to receive dividends from its subsidiaries;
(17) Peoples' ability to maintain required capital levels and adequate sources of funding and liquidity;
(18) the impact of minimum capital thresholds established as a part of the implementation of Basel III;
(19) the impact of larger or similar sized financial institutions encountering problems, which may adversely affect the banking industry and/or Peoples' business generation and retention, funding and liquidity;
(20) the costs and effects of regulatory and legal developments, including the outcome of potential regulatory or other governmental inquiries and legal proceedings and results of regulatory examinations;
(21) Peoples' ability to secure confidential information through the use of computer systems and telecommunications networks, including those of Peoples' third-party vendors and other service providers, may prove inadequate, which could adversely affect customer confidence in Peoples and/or result in Peoples incurring a financial loss;
(22) ability to anticipate and respond to technological changes which can impact Peoples' ability to respond to customer needs and meet competitive demands;
(23) changes in consumer spending, borrowing and saving habits, whether due to changes in business and economic conditions, legislative or regulatory initiatives, or other factors, which may be different than anticipated;
(24) the overall adequacy of Peoples' risk management program;
(25) the impact on Peoples' businesses, as well as on the risks described above, of various domestic or international widespread natural or other disasters, pandemics, cyber attacks, civil unrest, military or terrorist activities or international conflicts;
(26) significant changes in the tax laws, which may adversely affect the fair values of deferred tax assets and obligations of states and political subdivisions held in Peoples' investment securities portfolio; and
(27) other risk factors relating to the banking industry or Peoples as detailed from time to time in Peoples' reports filed with the Securities and Exchange Commission (the "SEC"), including those risk factors included in the disclosures under the heading "ITEM 1A. RISK FACTORS" of Peoples' Annual Report on Form 10-K for the fiscal year ended December 31, 2016.
Peoples encourages readers of this news release to understand forward-looking statements to be strategic objectives rather than absolute targets of future performance. (a) This amount represents a non-GAAP financial measure since it excludes the balance sheet impact of goodwill and other intangible assets acquired through acquisitions on stockholders' equity. Additional information regarding the calculation of this ratio is included at the end of this news release.
(b) Ratios are presented on an annualized basis.
(c) This amount represents a non-GAAP financial measure since it excludes the after-tax impact of amortization of other intangible assets from earnings and it excludes the balance sheet impact of goodwill and other intangible assets acquired through acquisitions on stockholders' equity. Additional information regarding the calculation of this ratio is included at the end of this news release.
(d) Total non-interest expense (less amortization of other intangible assets) as a percentage of fully tax-equivalent net interest income plus total feebased income. This amount represents a non-GAAP financial measure since it excludes amortization of other intangible assets, and all gains and/ or losses included in earnings, and uses fully tax-equivalent net interest income. Additional information regarding the calculation of this ratio is included at the end of this news release.
(e) This ratio represents a non-GAAP financial measure since it excludes the provision for (recovery of) loan losses and all gains and/or losses included in earnings. This measure is a key metric used by federal bank regulatory agencies in their evaluation of capital adequacy for financial institutions. Additional information regarding the calculation of this ratio is included at the end of this news release.
(f) Information presented on a fully tax-equivalent basis.
(g) Ratios are calculated based on dividends paid during the period divided by earnings for the period.
