EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the quarterly period ended March 31, 2018 of Simon Property Group, Inc., a Delaware corporation, and Simon Property Group, L.P., a Delaware limited partnership. Unless stated otherwise or the context otherwise requires, references to “Simon” mean Simon Property Group, Inc. and references to the “Operating Partnership” mean Simon Property Group, L.P. References to “we,” “us” and “our” mean collectively Simon, the Operating Partnership and those entities/subsidiaries owned or controlled by Simon and/or the Operating Partnership.

Simon is a real estate investment trust, or REIT, under the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code. We are structured as an umbrella partnership REIT under which substantially all of our business is conducted through the Operating Partnership, Simon’s majority-owned partnership subsidiary, for which Simon is the general partner. As of March 31, 2018, Simon owned an approximate 86.9% ownership interest in the Operating Partnership, with the remaining 13.1% ownership interest owned by limited partners. As the sole general partner of the Operating Partnership, Simon has exclusive control of the Operating Partnership’s day-to-day management.

We operate Simon and the Operating Partnership as one business. The management of Simon consists of the same members as the management of the Operating Partnership. As general partner with control of the Operating Partnership, Simon consolidates the Operating Partnership for financial reporting purposes, and Simon has no material assets or liabilities other than its investment in the Operating Partnership. Therefore, the assets and liabilities of Simon and the Operating Partnership are the same on their respective financial statements.

We believe that combining the quarterly reports on Form 10-Q of Simon and the Operating Partnership into this single report provides the following benefits:

- enhances investors’ understanding of Simon and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined presentation since substantially all of the disclosure in this report applies to both Simon and the Operating Partnership; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

We believe it is important for investors to understand the few differences between Simon and the Operating Partnership in the context of how we operate as a consolidated company. The primary difference is that Simon itself does not conduct business, other than acting as the general partner of the Operating Partnership and issuing equity or equity-related instruments from time to time. In addition, Simon itself does not incur any indebtedness, as all debt is incurred by the Operating Partnership or entities/subsidiaries owned or controlled by the Operating Partnership.

The Operating Partnership holds, directly or indirectly, substantially all of our assets, including our ownership interests in our joint ventures. The Operating Partnership conducts substantially all of our business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from equity issuances by Simon, which are contributed to the capital of the Operating Partnership in exchange for, in the case of common stock issuances by Simon, common units of partnership interest in the Operating Partnership, or units, or, in the case of preferred stock issuances by Simon, preferred units of partnership interest in the Operating Partnership, or preferred units, the Operating Partnership, directly or indirectly, generates the capital required by our business through its operations, the incurrence of indebtedness, proceeds received from the disposition of certain properties and joint ventures and the issuance of units or preferred units to third parties.

The presentation of stockholders’ equity, partners’ equity and noncontrolling interests are the main areas of difference between the consolidated financial statements of Simon and those of the Operating Partnership. The differences between stockholders’ equity and partners’ equity result from differences in the equity issued at the Simon and Operating Partnership levels. The units held by limited partners in the Operating Partnership are accounted for as partners’ equity in the Operating Partnership’s financial statements and as noncontrolling interests in Simon’s financial statements. The noncontrolling interests in the Operating Partnership’s financial statements include the interests of unaffiliated partners in various consolidated partnerships. The noncontrolling interests in Simon’s financial statements include the same noncontrolling interests at the Operating Partnership level and, as previously stated, the units held by limited partners of the Operating Partnership. Although classified differently, total equity of Simon and the Operating Partnership is the same.

To help investors understand the differences between Simon and the Operating Partnership, this report provides:

- separate consolidated financial statements for Simon and the Operating Partnership;
- a single set of condensed notes to such consolidated financial statements that includes separate discussions of noncontrolling interests and stockholders' equity or partners' equity, accumulated other comprehensive income (loss) and per share and per unit data, as applicable;
- a combined Management's Discussion and Analysis of Financial Condition and Results of Operations section that also includes discrete information related to each entity; and
- separate Part II, Item 2. Unregistered Sales of Equity Securities and Use of Proceeds sections related to each entity.

This report also includes separate Part I, Item 4. Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of Simon and the Operating Partnership in order to establish that the requisite certifications have been made and that Simon and the Operating Partnership are each compliant with Rule 13a-14(a) or Rule 15d-14(a) of the Securities Exchange Act of 1934 and 18 U.S.C. §1350. The separate discussions of Simon and the Operating Partnership in this report should be read in conjunction with each other to understand our results on a consolidated basis and how management operates our business.

In order to highlight the differences between Simon and the Operating Partnership, the separate sections in this report for Simon and the Operating Partnership specifically refer to Simon and the Operating Partnership. In the sections that combine disclosure of Simon and the Operating Partnership, this report refers to actions or holdings of Simon and the Operating Partnership as being "our" actions or holdings. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and joint ventures, holds assets and incurs debt, we believe that references to "we," "us" or "our" in this context is appropriate because the business is one enterprise and we operate substantially all of our business through the Operating Partnership.

1. Organization

Simon Property Group, Inc. is a Delaware corporation that operates as a self-administered and self-managed real estate investment trust, or REIT, under the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code. REITs will generally not be liable for U.S. federal corporate income taxes as long as they distribute not less than 100% of their REIT taxable income. Simon Property Group, L.P. is our majority-owned Delaware partnership subsidiary that owns all of our real estate properties and other assets. In these condensed notes to the consolidated financial statements, unless stated otherwise or the context otherwise requires, references to "Simon" mean Simon Property Group, Inc. and references to the "Operating Partnership" mean Simon Property Group, L.P. References to "we," "us" and "our" mean collectively Simon, the Operating Partnership and those entities/subsidiaries owned or controlled by Simon and/or the Operating Partnership. Unless otherwise indicated, these condensed notes to consolidated financial statements apply to both Simon and the Operating Partnership. According to the Operating Partnership's partnership agreement, the Operating Partnership is required to pay all expenses of Simon.

We own, develop and manage premier shopping, dining, entertainment and mixed-use destinations, which consist primarily of malls, Premium Outlets[®], and The Mills[®]. As of March 31, 2018, we owned or held an interest in 206 income-producing properties in the United States, which consisted of 107 malls, 68 Premium Outlets, 14 Mills, four lifestyle centers, and 13 other retail properties in 37 states and Puerto Rico. Internationally, as of March 31, 2018, we had ownership interests in nine Premium Outlets in Japan, four Premium Outlets in South Korea, two Premium Outlets in Canada, two Premium Outlets in Malaysia and one Premium Outlet in Mexico. We also own an interest in eight Designer Outlet properties in Europe, of which six properties are consolidated, and one Designer Outlet property in Canada. Of the eight properties in Europe, two are located in Italy, two are located in the Netherlands and one each is located in Austria, Germany, France and the United Kingdom. As of March 31, 2018, we also owned a 21.1% equity stake in Klépierre SA, or Klépierre, a publicly traded, Paris-based real estate company which owns, or has an interest in, shopping centers located in 16 countries in Europe.

2. Basis of Presentation

The accompanying unaudited consolidated financial statements include the accounts of all controlled subsidiaries, and all significant intercompany amounts have been eliminated. Due to the seasonal nature of certain operational activities, the results for the interim periods ended March 31, 2018 are not necessarily indicative of the results to be expected for the full year.

These consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and include all of the information and disclosures required by accounting principles generally accepted in the United States (GAAP) for interim reporting. Accordingly, they do not include all of the disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments necessary for fair presentation (including normal recurring accruals) have been included. The consolidated financial statements in this Form 10-Q should be read in conjunction with the audited consolidated financial statements and related notes contained in the combined 2017 Annual Report on Form 10-K of Simon and the Operating Partnership.

As of March 31, 2018, we consolidated 133 wholly-owned properties and 19 additional properties that are less than wholly-owned, but which we control or for which we are the primary beneficiary. We account for the remaining 81 properties, or the joint venture properties, as well as our investments in Klépierre, Aéropostale, and HBS Global Properties, or HBS, using the equity method of accounting, as we have determined we have significant influence over their operations. We manage the day-to-day operations of 58 of the 81 joint venture properties, but have determined that our partner or partners have substantive participating rights with respect to the assets and operations of these joint venture properties. Our investments in joint ventures in Japan, South Korea, Mexico, Malaysia, Germany, Canada, and the United Kingdom comprise 19 of the remaining 23 properties. These international properties are managed by joint ventures in which we share control.

Preferred distributions of the Operating Partnership are accrued at declaration and represent distributions on outstanding preferred units of partnership interests, or preferred units, and are included in net income attributable to noncontrolling interests. We allocate net operating results of the Operating Partnership after preferred distributions to limited partners and to Simon based on the partners' respective weighted average ownership interests in the Operating Partnership. Net operating results of the Operating Partnership attributable to limited partners are reflected in net income attributable to noncontrolling interests. Simon's weighted average ownership interest in the Operating Partnership was 86.9% for the three months ended March 31, 2018 and 2017. As of March 31, 2018 and December 31, 2017, Simon's ownership interest in the Operating Partnership was 86.9%. We adjust the noncontrolling limited partners' interests at the end of each period to reflect their interest in the net assets of the Operating Partnership.

Preferred unit requirements in the Operating Partnership's accompanying consolidated statements of operations and comprehensive income represent distributions on outstanding preferred units and are recorded when declared.

3. Significant Accounting Policies

Cash and Cash Equivalents

We consider all highly liquid investments purchased with an original maturity of 90 days or less to be cash and cash equivalents. Cash equivalents are carried at cost, which approximates fair value. Cash equivalents generally consist of commercial paper, bankers' acceptances, Eurodollars, repurchase agreements, and money market deposits or securities. Financial instruments that potentially subject us to concentrations of credit risk include our cash and cash equivalents and our trade accounts receivable. We place our cash and cash equivalents with institutions of high credit quality. However, at certain times, such cash and cash equivalents are in excess of Federal Deposit Insurance Corporation and Securities Investor Protection Corporation insurance limits.

Equity Instruments and Debt Securities

Equity instruments and debt securities consist primarily of the debt securities of our captive insurance subsidiary, equity instruments, our deferred compensation plan investments, and certain investments held to fund the debt service requirements of debt previously secured by investment properties. At March 31, 2018 and December 31, 2017, we had equity instruments with readily determinable fair values of \$93.7 million and \$88.3 million, respectively. Effective January 1, 2018, changes in fair value of these equity instruments are recorded in earnings. At March 31, 2018 and December 31, 2017, we had equity instruments without readily determinable fair values of \$186.7 million and \$186.9 million, respectively, for which we have elected the measurement alternative. We regularly evaluate these investments for any impairment in their estimated fair value, as well as any observable price changes for an identical or similar equity instrument of the same issuer, and determined that no material adjustment in the carrying value was required for the three months ended March 31, 2018.

Our deferred compensation plan equity instruments are valued based upon quoted market prices. The investments have a matching liability as the amounts are fully payable to the employees that earned the compensation. Changes in value of these securities and changes to the matching liability to employees are both recognized in earnings and, as a result, there is no impact to consolidated net income.

At March 31, 2018 and December 31, 2017, we held debt securities of \$62.9 million and \$55.7 million, respectively, in our captive insurance subsidiary. The types of securities included in the investment portfolio of our captive insurance subsidiary typically includes U.S. Treasury or other U.S. government securities as well as corporate debt securities with maturities ranging from less than 1 year to 10 years. These securities are classified as available-for-sale and are valued based upon quoted market prices or other observable inputs when quoted market prices are not available. The amortized cost of debt securities, which approximates fair value, held by our captive insurance subsidiary is adjusted for amortization of premiums and accretion of discounts to maturity. Changes in the values of these securities are recognized in accumulated other comprehensive income (loss) until the gain or loss is realized or until any unrealized loss is deemed to

(Unaudited)
(Dollars in thousands, except share, per share, unit and per unit amounts
and where indicated in millions or billions)

be other-than-temporary. We review any declines in value of these securities for other-than-temporary impairment and consider the severity and duration of any decline in value. To the extent an other-than-temporary impairment is deemed to have occurred, an impairment is recorded and a new cost basis is established. Net unrealized losses recorded in the Operating Partnership's accumulated other comprehensive income (loss) as of March 31, 2018 and December 31, 2017 were approximately \$0.7 million and \$0.4 million, respectively, and represent the valuation adjustments for our investments in debt securities.

Our captive insurance subsidiary is required to maintain statutory minimum capital and surplus as well as maintain a minimum liquidity ratio. Therefore, our access to these securities may be limited.

Fair Value Measurements

Level 1 fair value inputs are quoted prices for identical items in active, liquid and visible markets such as stock exchanges. Level 2 fair value inputs are observable information for similar items in active or inactive markets, and appropriately consider counterparty creditworthiness in the valuations. Level 3 fair value inputs reflect our best estimate of inputs and assumptions market participants would use in pricing an asset or liability at the measurement date. The inputs are unobservable in the market and significant to the valuation estimate. We have no investments for which fair value is measured on a recurring basis using Level 3 inputs.

The equity instruments with readily available determinable fair values we held at March 31, 2018 and December 31, 2017 were primarily classified as having Level 1 and Level 2 fair value inputs. In addition, we had derivative instruments which were classified as having Level 2 inputs, which consist primarily of foreign currency forward contracts and interest rate swap agreements with a gross asset balance of \$1.0 million at March 31, 2018 and a gross liability balance of \$24.8 million and \$18.1 million at March 31, 2018 and December 31, 2017, respectively.

Note 6 includes a discussion of the fair value of debt measured using Level 2 inputs. Level 3 inputs to our purchase accounting and impairment analyses include our estimations of net operating results of the property, capitalization rates and discount rates.

Noncontrolling Interests

Simon

Details of the carrying amount of our noncontrolling interests are as follows:

	As of March 31, 2018	As of December 31, 2017
Limited partners' interests in the Operating Partnership	\$ 523,630	\$ 548,858
Nonredeemable noncontrolling interests in properties, net . .	3,800	3,738
Total noncontrolling interests reflected in equity	\$ 527,430	\$ 552,596

Net income attributable to noncontrolling interests (which includes nonredeemable and redeemable noncontrolling interests in consolidated properties, limited partners' interests in the Operating Partnership and preferred distributions payable by the Operating Partnership on its outstanding preferred units) is a component of consolidated net income. In addition, the individual components of other comprehensive income (loss) are presented in the aggregate for both controlling and noncontrolling interests, with the portion attributable to noncontrolling interests deducted from comprehensive income attributable to common stockholders.

The Operating Partnership

Our evaluation of the appropriateness of classifying the Operating Partnership's common units of partnership interest, or units, held by Simon and the Operating Partnership's limited partners within permanent equity considered several significant factors. First, as a limited partnership, all decisions relating to the Operating Partnership's operations and distributions are made by Simon, acting as the Operating Partnership's sole general partner. The decisions of the general partner are made by Simon's Board of Directors or management. The Operating Partnership has no other governance structure. Secondly, the sole asset of Simon is its interest in the Operating Partnership. As a result, a share of common stock of Simon, or common stock, if owned by the Operating Partnership, is best characterized as being similar to a treasury share and thus not an asset of the Operating Partnership.

Limited partners of the Operating Partnership have the right under the Operating Partnership's partnership agreement to exchange their units for shares of common stock or cash, as selected by Simon as the sole general partner. Accordingly, we classify units held by limited partners in permanent equity because Simon may elect to issue shares of common stock to limited partners exercising their exchange rights rather than using cash. Under the Operating Partnership's partnership agreement, the Operating Partnership is required to redeem units held by Simon only when Simon has repurchased shares of common stock. We classify units held by Simon in permanent equity because the decision to redeem those units would be made by Simon.

Net income attributable to noncontrolling interests (which includes nonredeemable and redeemable noncontrolling interests in consolidated properties) is a component of consolidated net income.

Derivative Financial Instruments

We record all derivatives on our consolidated balance sheets at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether we have designated a derivative as a hedge and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. We may use a variety of derivative financial instruments in the normal course of business to selectively manage or hedge a portion of the risks associated with our indebtedness and interest payments. Our objectives in using interest rate derivatives are to add stability to interest expense and to manage our exposure to interest rate movements. To accomplish this objective, we primarily use interest rate swaps and caps. We require that hedging derivative instruments be highly effective in reducing the risk exposure that they are designated to hedge. We formally designate any instrument that meets these hedging criteria as a hedge at the inception of the derivative contract. We have no credit-risk-related hedging or derivative activities.

As of March 31, 2018 and December 31, 2017, we had no outstanding interest rate derivatives. We generally do not apply hedge accounting to interest rate caps, which had a nominal value as of March 31, 2018 and December 31, 2017, respectively.

We are also exposed to fluctuations in foreign exchange rates on financial instruments which are denominated in foreign currencies, primarily in Yen and Euro. We use currency forward contracts, cross currency swap contracts and foreign currency denominated debt to manage our exposure to changes in foreign exchange rates on certain Yen and Euro-denominated receivables and net investments. Currency forward contracts involve fixing the Yen:USD or Euro:USD

and where indicated in millions or billions)

exchange rate for delivery of a specified amount of foreign currency on a specified date. The currency forward contracts are typically cash settled in U.S. dollars for their fair value at or close to their settlement date.

We had the following Euro:USD forward contracts at March 31, 2018 and December 31, 2017 (in millions):

<u>Notional Value</u>	<u>Maturity Date</u>	<u>Asset (Liability) Value as of</u>	
		<u>March 31,</u> <u>2018</u>	<u>December 31,</u> <u>2017</u>
€ 65.0	May 15, 2018	0.9	—
€ 50.0	May 15, 2019	(3.9)	(2.4)
€ 50.0	May 15, 2019	(6.4)	(4.9)
€ 50.0	May 15, 2020	(7.0)	(5.2)
€ 50.0	May 14, 2021	(7.4)	(5.5)

Asset balances in the above table are included in deferred costs and other assets. Liability balances in the above table are included in other liabilities.

In the first quarter of 2018, we entered into a cross-currency swap agreement to manage our exposure to changes in foreign exchange rates by swapping \$150.0 million of 4.38% fixed-rate U.S. dollar-denominated debt to 1.37% fixed-rate Euro-denominated debt of €121.6 million. The cross-currency swap matures on December 1, 2020. The carrying value of our cross-currency swap agreement at March 31, 2018 is \$0.1 million and is included in deferred costs and other assets.

We have designated the currency forward contracts and cross-currency swap as net investment hedges. Accordingly, we report the changes in fair value in other comprehensive income (loss). Changes in the value of these forward contracts are offset by changes in the underlying hedged Euro-denominated joint venture investment.

The total gross accumulated other comprehensive income related to the Operating Partnership's derivative activities, including our share of the other comprehensive income from unconsolidated entities, approximated \$5.3 million and \$9.3 million as of March 31, 2018 and December 31, 2017, respectively.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, "Revenue From Contracts With Customers." ASU 2014-09 amends the existing accounting standards for revenue recognition. The new standard provides accounting guidance for all revenue arising from contracts with customers and affects all entities that enter into contracts to provide goods or services to their customers. The guidance also provides a model for the measurement and recognition of gains and losses on the sale of certain nonfinancial assets, such as property, including real estate.

Our revenues impacted by this standard primarily include management, development, leasing and financing fee revenues for services performed related to various domestic joint ventures that we manage, licensing fees earned from various international properties, sales of real estate, including land parcels and operating properties, and other ancillary income earned at our properties. For the years ended December 31, 2017 and 2016, these revenues were less than 6.0% and 7.0% of consolidated revenue, respectively. The amount and timing of revenue recognition from our services to joint ventures, licensing fee arrangements, and ancillary income under the newly effective standard is consistent with the prior measurement and pattern of recognition. In addition, we do not actively sell operating properties as part of our core business strategy and, accordingly, the sale of properties does not generally constitute a significant part of our revenue and cash flows. We adopted the standard using the modified retrospective approach on January 1, 2018 and there was no cumulative effect adjustment recognized. Our revenues impacted by this standard are included in management fees

(Unaudited)

and other revenues and in other income in the accompanying consolidated statement of operations and comprehensive income.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments — Overall: Recognition and Measurement of Financial Assets and Financial Liabilities," which requires entities to recognize changes in equity investments with readily determinable fair values in net income. We recognized a cumulative effect adjustment of \$7.3 million as of adoption on January 1, 2018 to reclassify unrealized gains previously reported in accumulated other comprehensive income for equity instruments with readily determinable fair values that were previously accounted for as available-for-sale securities and certain equity instruments previously accounted for using the cost method for which the measurement alternative described below was not elected. For those equity instruments that do not have readily determinable fair values, the ASU permits the application of a measurement alternative using the cost of the investment, less any impairments, plus or minus changes resulting from observable price changes for an identical or similar investment of the same issuer. This guidance will be applied prospectively upon the occurrence of an event which establishes fair value to all other equity instruments we account for using the measurement alternative.

In February 2016, the FASB issued ASU 2016-02, "Leases," which will result in lessees recognizing most leased assets and corresponding lease liabilities on the balance sheet. Lessor accounting will remain substantially similar to the current accounting; however, certain refinements were made to conform the standard with the recently issued revenue recognition guidance in ASU 2014-09, specifically related to the allocation and recognition of contract consideration earned from lease and non-lease revenue components. ASU 2016-02 also limits the capitalization of leasing costs to initial direct costs, which will likely result in a reduction to our capitalized leasing costs and an increase in expenses, though the amount of such change is highly dependent upon the leasing compensation structures in place at the time of adoption.

Substantially all of our revenues and the revenues of our equity method investments are earned from arrangements that are within the scope of ASU 2016-02. Upon adoption of ASU 2016-02, consideration related to non-lease components identified in our lease arrangements will be accounted for using the guidance in ASU 2014-09, which we have determined would (i) necessitate that we reallocate consideration received under many of our lease arrangements between the lease and non-lease component, (ii) result in recognizing revenue allocated to our primary non-lease component (consideration received from fixed common area maintenance arrangements) on a straight-line basis and (iii) require separate presentation of revenue recognized from lease and non-lease components on our statement of operations. However, on January 5, 2018, the FASB issued an Exposure Draft that proposes targeted improvements to ASU 2016-02, which include creating a practical expedient that would provide lessors an option not to separate lease and non-lease components when certain criteria are met and instead account for those components as a single component. If the FASB adopts this proposed update, we believe we would meet the criteria to account for lease and non-lease components as a single component, which would alleviate the requirement upon adoption of ASU 2016-02 that we reallocate or separately present lease and non-lease components. We would, however, recognize consideration received from fixed common area maintenance arrangements on a straight-line basis. In March 2018, the FASB indicated that it intends to adopt the proposed update but a final ASU has not been issued.

Further, upon adoption of ASU 2016-02, leases of land and other arrangements where we are the lessee will be recognized on our balance sheet. Undiscounted future minimum lease payments due under long-term ground leases with termination dates which range from 2019 to 2090, excluding extension options, over the term of these leases total approximately \$780.4 million. The adoption of the guidance will result in the recognition of leased assets and corresponding liabilities discounted over the life of the applicable leases.

We will adopt ASU 2016-02 and any subsequent amendments beginning in the first quarter of 2019. In the Exposure Draft issued on January 5, 2018, the FASB also proposed a transition option that would permit the application of the new guidance as of the adoption date rather than to all periods presented. In March 2018, the FASB also indicated that it intends to adopt the proposed update but a final ASU has not been issued. We are currently evaluating the impact that the adoption

Condensed Notes to Consolidated Financial Statements
(Unaudited)
(Dollars in thousands, except share, per share, unit and per unit amounts
and where indicated in millions or billions)

of the new standard and the update the FASB intends to adopt will have on our consolidated financial statements and method of adoption.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses," which introduces new guidance for an approach based on expected losses to estimate credit losses on certain types of financial instruments. It also modifies the impairment model for available-for-sale debt securities and provides for a simplified accounting model for purchased financial assets with credit deterioration since their origination. Instruments in scope include loans, held-to-maturity debt securities, and net investments in leases as well as reinsurance and trade receivables. This standard will be effective for us in fiscal years beginning after December 15, 2019. We are currently evaluating the impact that the adoption of the new standard will have on our consolidated financial statements.

In February 2017, the FASB issued ASU 2017-05, "Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets," which clarifies the scope and application of Accounting Standards Codification 610-20 on the sale or transfer of nonfinancial assets and in substance assets to noncustomers, including partial sales. The standard generally aligns the measurement of a retained interest in a nonfinancial asset with that of a retained interest in a business. It also eliminates the use of the carryover basis for contributions of real estate into a joint venture where control of the real estate is not retained, which will result in the recognition of a gain or loss upon contribution. We adopted the standard using the modified retrospective approach on January 1, 2018 and there was no cumulative effect adjustment to recognize.

In August 2017, the FASB issued ASU 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities," which introduced amendments to the hedge accounting model to allow for better alignment with risk management practices in addition to simplifying the hedge accounting model. The provisions may permit more risk management strategies to qualify for hedge accounting, including interest rate hedges and foreign currency hedges. We early adopted the ASU on January 1, 2018 as permitted under the standard. There was no impact on our consolidated financial statements at adoption.

4. Per Share and Per Unit Data

We determine basic earnings per share and basic earnings per unit based on the weighted average number of shares of common stock or units, as applicable, outstanding during the period and we consider any participating securities for purposes of applying the two-class method. We determine diluted earnings per share and diluted earnings per unit based on the weighted average number of shares of common stock or units, as applicable, outstanding combined with the incremental weighted average number of shares or units, as applicable, that would have been outstanding assuming all potentially dilutive securities were converted into shares of common stock or units, as applicable, at the earliest date possible. The following tables set forth the components of basic and diluted earnings per share and basic and diluted earnings per unit.

Weighted Average Shares Outstanding — Basic and Diluted	310,583,643	312,809,981

For the three months ended March 31, 2018, potentially dilutive securities include units that are exchangeable for common stock and long-term incentive performance units, or LTIP units, granted under our long-term incentive

performance programs that are convertible into units and exchangeable for common stock. No securities had a material dilutive effect for the three months ended March 31, 2018 and 2017. We have not adjusted net income attributable to common stockholders and weighted average shares outstanding for income allocable to limited partners or units, respectively, as doing so would have no dilutive impact. We accrue dividends when they are declared.

The Operating Partnership

	For the Three Months Ended March 31,	
	2018	2017
Net Income attributable to Unitholders — Basic and Diluted	\$ 714,303	\$ 550,006
Weighted Average Units Outstanding — Basic and Diluted	357,446,988	360,130,442

For the three months ended March 31, 2018, potentially dilutive securities include LTIP units. No securities had a material dilutive effect for the three months ended March 31, 2018 and 2017. We accrue distributions when they are declared.

5. Investment in Unconsolidated Entities

Real Estate Joint Ventures and Investments

Joint ventures are common in the real estate industry. We use joint ventures to finance properties, develop new properties and diversify our risk in a particular property or portfolio of properties. As discussed in Note 2, we held joint venture interests in 81 properties as of March 31, 2018.

Certain of our joint venture properties are subject to various rights of first refusal, buy-sell provisions, put and call rights, or other sale or marketing rights for partners which are customary in real estate joint venture agreements and the industry. We and our partners in these joint ventures may initiate these provisions (subject to any applicable lock up or similar restrictions), which may result in either the sale of our interest or the use of available cash or borrowings, or the use of limited partnership interests in the Operating Partnership, to acquire the joint venture interest from our partner.

We may provide financing to joint ventures primarily in the form of interest bearing construction loans. As of March 31, 2018 and December 31, 2017, we had construction loans and other advances to related parties totaling \$84.9 million and \$87.0 million, respectively, which are included in deferred costs and other assets in the accompanying consolidated balance sheets.

Unconsolidated Entity Transactions

As of March 31, 2018 and December 31, 2017, we had an 11.7% noncontrolling equity interest in HBS, a venture formed with Hudson's Bay Company. The venture has 42 properties in the U.S. and, subsequent to formation, acquired 41 properties from Kaufhof. In exchange for our interest, we committed to contribute \$100.0 million for improvements to certain properties. As of March 31, 2018 and December 31, 2017, we had funded \$68.3 million of this commitment. In addition, we contributed \$178.5 million in connection with the acquisition of the Kaufhof department stores. Our share of net income, net of amortization of our excess investment, was \$4.0 million and \$3.2 million for the three months ended March 31, 2018 and 2017, respectively. Total revenues, operating income and consolidated net income were approximately \$87.2 million, \$76.8 million, and \$51.6 million, respectively, for the three months ended March 31, 2018 and \$81.9 million, \$64.9 million, and \$44.1 million, respectively, for the three months ended March 31, 2017.

European Investments

At March 31, 2018, we owned 63,924,148 shares, or approximately 21.1%, of Klépierre, which had a quoted market price of \$40.36 per share. Our share of net income, net of amortization of our excess investment, was \$22.9 million and \$7.1 million for the three months ended March 31, 2018 and 2017, respectively. Based on applicable Euro:USD exchange rates and after our conversion of Klépierre's results to GAAP, Klépierre's total revenues, operating income and consolidated net income were approximately \$410.3 million, \$135.8 million and \$202.3 million, respectively, for the three months ended March 31, 2018 and \$342.6 million, \$105.0 million and \$69.5 million, respectively, for the three months ended March 31, 2017.

During the three months ended March 31, 2018, Klépierre completed the disposal of its interests in certain shopping centers. In connection with these disposals, we recorded a gain of \$13.4 million, representing our share of the gains recognized by Klépierre, which is included in gain upon acquisition of controlling interests, sale or disposal of assets and interests in unconsolidated entities and impairment, net in the accompanying consolidated statement of operations and comprehensive income.

We have an interest in a European investee that had interests in nine Designer Outlet properties as of March 31, 2018 and December 31, 2017, respectively. As of March 31, 2018, our legal percentage ownership interests in these properties ranged from 45% to 94%.

In addition, we have a 50.0% noncontrolling interest in a European property management and development company that provides services to the Designer Outlet properties.

We also have minority interests in Value Retail PLC and affiliated entities, which own or have interests in and operate nine luxury outlets located throughout Europe and we have a direct minority ownership in three of those outlets. At March 31, 2018 and December 31, 2017, the carrying value of these equity instruments was \$140.8 million and is included in deferred costs and other assets.

Asian Joint Ventures

We conduct our international Premium Outlet operations in Japan through a joint venture with Mitsubishi Estate Co., Ltd. We have a 40% noncontrolling ownership interest in this joint venture. The carrying amount of our investment in this joint venture was \$247.1 million and \$230.3 million as of March 31, 2018 and December 31, 2017, respectively, including all related components of accumulated other comprehensive income (loss). We conduct our international Premium Outlet operations in South Korea through a joint venture with Shinsegae International Co. We have a 50% noncontrolling ownership interest in this joint venture. The carrying amount of our investment in this joint venture was \$151.9 million and \$149.1 million as of March 31, 2018 and December 31, 2017, respectively, including all related components of accumulated other comprehensive income (loss).

"Excess Investment" represents the unamortized difference of our investment over our share of the equity in the underlying net assets of the joint ventures or other investments acquired and is allocated on a fair value basis primarily to investment properties, lease related intangibles, and debt premiums and discounts. We amortize excess investment over the life of the related depreciable components of investment properties, typically no greater than 40 years, the terms of the applicable leases and the applicable debt maturity, respectively. The amortization is included in the reported amount of income from unconsolidated entities.

6. Debt

Unsecured Debt

At March 31, 2018, our unsecured debt consisted of \$15.8 billion of senior unsecured notes of the Operating Partnership, \$334.5 million outstanding under the Operating Partnership's \$4.0 billion unsecured revolving credit facility, or Credit Facility, and \$848.6 million outstanding under the Operating Partnership's global unsecured commercial paper

note program, or Commercial Paper program. The March 31, 2018 balance on the Credit Facility included \$209.5 million (U.S. dollar equivalent) of Yen-denominated borrowings. Foreign currency denominated borrowings under the Credit Facility are designated as net investment hedges of a portion of our international investments.

On March 31, 2018, we had an aggregate available borrowing capacity of \$6.3 billion under the Credit Facility and the Operating Partnership's \$3.5 billion unsecured revolving credit facility, or Supplemental Facility, and together with the Credit Facility, the Credit Facilities. The maximum aggregate outstanding balance under the Credit Facilities during the three months ended March 31, 2018 was \$423.1 million and the weighted average outstanding balance was \$334.8 million. Letters of credit of \$6.2 million were outstanding under the Credit Facilities as of March 31, 2018.

The Credit Facility's initial borrowing capacity of \$4.0 billion may be increased to \$5.0 billion during its term and provides for borrowings denominated in U.S. dollars, Euro, Yen, Sterling, Canadian dollars and Australian dollars. Borrowings in currencies other than the U.S. dollar are limited to 95% of the maximum revolving credit amount, as defined. The initial maturity date of the Credit Facility is June 30, 2021 and can be extended for an additional year to June 30, 2022 at our sole option, subject to our continued compliance with the terms thereof. The base interest rate on the Credit Facility is LIBOR plus 77.5 basis points with a facility fee of 10 basis points.

On February 15, 2018, the Operating Partnership amended and extended the Supplemental Facility. The Supplemental Facility's initial borrowing capacity of \$3.5 billion may be increased to \$4.5 billion during its term and provides for borrowings denominated in U.S. dollars, Euro, Yen, Sterling, Canadian dollars and Australian dollars. The initial maturity date of the Supplemental Facility was extended to June 30, 2022 and can be extended for an additional year to June 30, 2023 at our sole option, subject to our continued compliance with the terms thereof. The base interest rate on the Supplemental Facility was reduced to LIBOR plus 77.5 basis points from LIBOR plus 80 basis points, with a facility fee of 10 basis points.

The Operating Partnership also has available a Commercial Paper program of \$1.0 billion, or the non-U.S. dollar equivalent thereof. The Operating Partnership may issue unsecured commercial paper notes, denominated in U.S. dollars, Euro and other currencies. Notes issued in non-U.S. currencies may be issued by one or more subsidiaries of the Operating Partnership and are guaranteed by the Operating Partnership. Notes will be sold under customary terms in the U.S. and Euro commercial paper note markets and rank (either by themselves or as a result of the guarantee described above) *pari passu* with the Operating Partnership's other unsecured senior indebtedness. The Commercial Paper program is supported by the Credit Facilities and if necessary or appropriate, we may make one or more draws under either of the Credit Facilities to pay amounts outstanding from time to time on the Commercial Paper program. On March 31, 2018, we had \$848.6 million outstanding under the Commercial Paper program, fully comprised of U.S. dollar-denominated notes with a weighted average interest rate of 1.72%. These borrowings mature on various dates through May 23, 2018 and reduce amounts otherwise available under the Credit Facilities.

On January 3, 2018, the Operating Partnership redeemed at par \$750.0 million of senior unsecured notes with a fixed interest rate of 1.50%.

Mortgage Debt

Total mortgage indebtedness was \$6.7 billion and \$6.9 billion at March 31, 2018 and December 31, 2017, respectively.

Covenants

Our unsecured debt agreements contain financial covenants and other non-financial covenants. If we were to fail to comply with these covenants, after the expiration of the applicable cure periods, the debt maturity could be accelerated or other remedies could be sought by the lender, including adjustments to the applicable interest rate. As of March 31, 2018, we were in compliance with all covenants of our unsecured debt.

Simon Property Group, Inc.

(Unaudited)
(Dollars in thousands, except share, per share, unit and per unit amounts
and where indicated in millions or billions)

At March 31, 2018, we or our subsidiaries were the borrowers under 47 non-recourse mortgage notes secured by mortgages on 50 properties, including two separate pools of cross-defaulted and cross-collateralized mortgages encumbering a total of five properties. Under these cross-default provisions, a default under any mortgage included in the cross-defaulted pool may constitute a default under all mortgages within that pool and may lead to acceleration of the indebtedness due on each property within the pool. Certain of our secured debt instruments contain financial and other non-financial covenants which are specific to the properties that serve as collateral for that debt. If the applicable borrower under these non-recourse mortgage notes were to fail to comply with these covenants, the lender could accelerate the debt and enforce its rights against their collateral. At March 31, 2018, the applicable borrowers under these non-recourse mortgage notes were in compliance with all covenants where non-compliance could individually or in the aggregate, giving effect to applicable cross-default provisions, have a material adverse effect on our financial condition, liquidity or results of operations.

Fair Value of Debt

The carrying value of our variable-rate mortgages and other loans approximates their fair values. We estimate the fair values of consolidated fixed-rate mortgages using cash flows discounted at current borrowing rates and other indebtedness using cash flows discounted at current market rates. We estimate the fair values of consolidated fixed-rate unsecured notes using quoted market prices, or, if no quoted market prices are available, we use quoted market prices for securities with similar terms and maturities. The book value of our consolidated fixed-rate mortgages and unsecured indebtedness including commercial paper was \$22.4 billion and \$23.4 billion as of March 31, 2018 and December 31, 2017, respectively. The fair values of these financial instruments and the related discount rate assumptions as of March 31, 2018 and December 31, 2017 are summarized as follows:

	<u>March 31, 2018</u>	<u>December 31, 2017</u>
Fair value of fixed-rate mortgages and unsecured indebtedness	\$ 22,443	\$ 24,003
Weighted average discount rates assumed in calculation of fair value for fixed-rate mortgages	4.59 %	4.25 %
Weighted average discount rates assumed in calculation of fair value for unsecured indebtedness	4.45 %	4.10 %

7. Equity

During the three months ended March 31, 2018, Simon issued 6,000 shares of common stock to a limited partner of the Operating Partnership in exchange for an equal number of units pursuant to the partnership agreement of the Operating Partnership. On March 21, 2018, the Operating Partnership redeemed 40,503 units from a limited partner for \$6.3 million. These transactions increased Simon's ownership interest in the Operating Partnership.

On February 13, 2017, Simon's Board of Directors authorized a two-year extension of the previously authorized \$2.0 billion common stock repurchase plan through March 31, 2019. Simon may repurchase the shares in the open market or in privately negotiated transactions as market conditions warrant. During the three months ended March 31, 2018, Simon purchased 1,473,588 shares at an average price of \$154.66 per share as part of this program. During the three months ended March 31, 2017, Simon purchased 870,692 shares at an average price of \$174.22 per share as part of this program. As Simon repurchases shares under this program, the Operating Partnership repurchases an equal number of units from Simon.

Temporary Equity

Simon

Simon classifies as temporary equity those securities for which there is the possibility that Simon could be required to redeem the security for cash irrespective of the probability of such a possibility. As a result, Simon classifies one series of preferred units in the Operating Partnership and noncontrolling redeemable interests in properties in temporary equity. Each of these securities is discussed further below.

Limited Partners' Preferred Interest in the Operating Partnership and Noncontrolling Redeemable Interests in Properties. The redemption features of the preferred units in the Operating Partnership contain provisions which could require the Operating Partnership to settle the redemption in cash. As a result, this series of preferred units in the Operating Partnership remains classified outside permanent equity. The remaining interests in a property or portfolio of properties which are redeemable at the option of the holder or in circumstances that may be outside Simon's control are accounted for as temporary equity. The carrying amount of the noncontrolling interest is adjusted to the redemption amount assuming the instrument is redeemable at the balance sheet date. Changes in the redemption value of the underlying noncontrolling interest are recorded within accumulated deficit. There were no noncontrolling interests redeemable at amounts in excess of fair value as of March 31, 2018 and December 31, 2017. The following table summarizes the preferred units in the Operating Partnership and the amount of the noncontrolling redeemable interests in properties as follows:

	As of March 31, 2018	As of December 31, 2017
7.50% Cumulative Redeemable Preferred Units, 260,000 units authorized, 255,373 issued and outstanding	\$ 25,537	\$ 25,537
Other noncontrolling redeemable interests in properties	176,143	164,943
Limited partners' preferred interest in the Operating Partnership and noncontrolling redeemable interests in properties	\$ 201,680	\$ 190,480

The Operating Partnership

The Operating Partnership classifies as temporary equity those securities for which there is the possibility that the Operating Partnership could be required to redeem the security for cash, irrespective of the probability of such a possibility. As a result, the Operating Partnership classifies one series of preferred units and noncontrolling redeemable interests in properties in temporary equity. The following table summarizes the preferred units and the amount of the noncontrolling redeemable interests in properties as follows:

	As of March 31, 2018	As of December 31, 2017
7.50% Cumulative Redeemable Preferred Units, 260,000 units authorized, 255,373 issued and outstanding	\$ 25,537	\$ 25,537
Other noncontrolling redeemable interests in properties	176,143	164,943
Total preferred units, at liquidation value, and noncontrolling redeemable interests in properties	\$ 201,680	\$ 190,480

Stock Based Compensation

Awards under our stock based compensation plans primarily take the form of LTIP unit and restricted stock grants. Restricted stock and awards under the LTIP programs are all performance based and are based on various individual,

Simon Property Group, Inc.
Simon Property Group, L.P.
Condensed Notes to Consolidated Financial Statements
(Unaudited)
(Dollars in thousands, except share, per share, unit and per unit amounts
and where indicated in millions or billions)

corporate and business unit performance measures as further described below. The expense related to these programs, net of amounts capitalized, is included within home and regional office costs and general and administrative costs in the accompanying statements of operations and comprehensive income.

LTIP Programs. The Compensation Committee has approved long-term, performance based incentive compensation programs, or the LTIP programs, for certain senior executive officers. Awards under the LTIP programs take the form of LTIP units, a form of limited partnership interest issued by the Operating Partnership, which are subject to the participant maintaining employment with us through certain dates and other conditions as described in the applicable award agreements. Awarded LTIP units not earned in accordance with the conditions set forth in the applicable award agreements are forfeited. Earned and fully vested LTIP units are equivalent to units of the Operating Partnership. During the performance period, participants are entitled to receive distributions on the LTIP units awarded to them equal to 10% of the regular quarterly distributions paid on a unit of the Operating Partnership. As a result, we account for these LTIP units as participating securities under the two-class method of computing earnings per share.

Awards under the LTIP programs for 2016 will be considered earned if, and only to the extent to which, applicable total shareholder return, or TSR, performance measures, as defined in the applicable award agreements, are achieved during the applicable performance periods. Once earned, LTIP units are subject to a two-year vesting period. One-half of the earned LTIP units will vest on January 1 of each of the second and third years following the end of the applicable performance period.

In 2018, the Compensation Committee established and granted awards under a redesigned LTIP program, or the 2018 LTIP program. Awards under the 2018 LTIP program were granted in two tranches, Tranche A LTIP units and Tranche B LTIP units. Each of the Tranche A LTIP units and the Tranche B LTIP units will be considered earned if, and only to the extent to which, the respective goals based on Funds From Operations, or FFO, per share or Relative TSR Goal performance criteria, as defined in the applicable award agreements, are achieved during the applicable two-year and three-year performance periods of the Tranche A LTIP units and Tranche B LTIP units, respectively. One-half of the earned Tranche A LTIP units will vest on January 1, 2021 with the other one-half vesting on January 1, 2022. All of the earned Tranche B LTIP units will vest on January 1, 2022.

The grant date fair value of the portion of the LTIP units based on achieving the target FFO performance criteria is \$6.25 million for the Tranche A LTIP units and the Tranche B LTIP units, for a total of \$12.5 million. The 2018 LTIP program provides that the value of the FFO-based award may be adjusted up or down based on the Company's performance compared to the target FFO performance criteria and has a maximum potential fair value of \$18.75 million. The value of the FFO-based award is recorded as expense over the period from the grant date to the date at which the awards, if earned, would become vested, based on our assessment as to whether it is probable that the performance criteria will be achieved during the applicable performance periods.

The grant date fair values of any LTIP units based on TSR performance are estimated using a Monte Carlo model, and the resulting fixed expense is recorded regardless of whether the TSR performance criteria are achieved if the required service is delivered. The grant date fair values are being amortized into expense over the period from the grant date to the date at which the awards, if earned, would become vested.

The Compensation Committee approved LTIP unit grants as shown in the table below. The extent to which LTIP units were earned, and the aggregate grant date fair value, are as follows:

<u>LTIP Program</u>	<u>LTIP Units Earned</u>	<u>Grant Date Fair Value of TSR Award</u>	<u>Grant Date Target Value of FFO-Based Award</u>
2013-2015 LTIP program	466,405	\$28.5 million	—
2014-2016 LTIP program	120,314	\$27.5 million	—
2015-2017 LTIP program	—	\$25.1 million	—
2016-2018 LTIP program	To be determined in 2019	\$26.3 million	—
2018 LTIP program - Tranche A . . .	To be determined in 2020	\$6.25 million	\$6.25 million
2018 LTIP program - Tranche B . . .	To be determined in 2021	\$6.25 million	\$6.25 million

We recorded compensation expense, net of capitalization, related to these LTIP programs of approximately \$4.8 million and \$4.6 million for the three months ended March 31, 2018 and 2017, respectively.

Restricted Stock. We recorded compensation expense, net of capitalization, related to restricted stock of approximately \$2.3 million and \$2.2 million for the three months ended March 31, 2018 and 2017, respectively.

Other Compensation Arrangements. On July 6, 2011, in connection with the execution of an employment agreement, the Compensation Committee granted David Simon, Simon's Chairman and Chief Executive Officer, a retention award in the form of 1,000,000 LTIP units, or the Award, for his continued service as Simon's Chairman and Chief Executive Officer through July 5, 2019. Effective December 31, 2013, the Award was modified, or the Current Award, and as a result the LTIP units now become earned and eligible to vest based on the attainment of Company-based performance goals, in addition to the service-based vesting requirement included in the original Award. The Current Award does not contain an opportunity for Mr. Simon to receive additional LTIP units above and beyond the original Award should our performance exceed the higher end of the performance criteria. The performance criteria of the Current Award are based on the attainment of specific FFO per share. Because the performance criteria has been met, a maximum of 360,000 LTIP units, or the A units, 360,000 LTIP units, or the B units, and 280,000 LTIP units, or the C units, became earned on December 31, 2015, December 31, 2016 and December 31, 2017, respectively. Based on the Company's performance in 2015, 360,000 A units were earned. Based on the Company's performance in 2016, 360,000 B units were earned. Based on the Company's performance in 2017, 280,000 C units were earned. If the relevant performance criteria had not been achieved, all or a portion of the Current Award would have been forfeited. The earned A units vested on January 1, 2018, earned B units will vest on January 1, 2019 and earned C units will vest on June 30, 2019, subject to Mr. Simon's continued employment through such applicable date. The grant date fair value of the retention award of \$120.3 million is being recognized as expense over the eight-year term of his employment agreement on a straight-line basis based through the applicable vesting periods of the A units, B units and C units.

8. Commitments and Contingencies

Litigation

We are involved from time-to-time in various legal and regulatory proceedings that arise in the ordinary course of our business, including, but not limited to, commercial disputes, environmental matters, and litigation in connection with transactions such as acquisitions and divestitures. We believe that current proceedings will not have a material adverse effect on our financial condition, liquidity, or results of operations. We record a liability when a loss is considered probable and the amount can be reasonably estimated.

In May 2010, Opry Mills sustained significant flood damage. Insurance proceeds of \$50 million have been funded by the primary insurer and remediation and restoration work has been completed. The property re-opened on March 29, 2012. The excess insurance carriers (those providing coverage above \$50 million) denied our claim under the policy for additional proceeds (of up to \$150 million) to pay further amounts for restoration costs and business interruption losses. In the first quarter of 2015, summary judgment was granted by the trial court in our favor, concluding that up to \$150 million of additional coverage is available under our excess insurance policies for this claim. In July and August 2015, trial on the damages portion of our claim was completed and the jury entered a verdict for damages in the amount of \$204.1 million (inclusive of the \$50.0 million previously paid by the primary carrier). In April 2016, the court entered final judgment in the amount of the jury verdict. On January 26, 2018, the Court of Appeals of Tennessee reversed the trial court's summary judgment on the amount of available coverage and ruled that the policy limit was \$50 million. The Company is seeking a review of this ruling by the Tennessee Supreme Court. We will continue our efforts through the conclusion of the pending litigation, including any and all appeals, to recover our losses, including consequential damages, under the excess insurance policies for Opry Mills and from our former insurance broker, Aon Risk Services Central Inc., who is a defendant in this case, but did not participate in the trial. However, no assurance can be made that our efforts to recover these losses will be successful.

Guarantees of Indebtedness

Joint venture debt is the liability of the joint venture and is typically secured by the joint venture property, which is non-recourse to us. As of March 31, 2018 and December 31, 2017, the Operating Partnership guaranteed joint venture related mortgage indebtedness of \$207.0 million and \$211.6 million, respectively (of which we have a right of recovery from our venture partners of \$10.8 million). Mortgages guaranteed by the Operating Partnership are secured by the property of the joint venture which could be sold in order to satisfy the outstanding obligation and which has an estimated fair value in excess of the guaranteed amount.

Concentration of Credit Risk

Our U.S. Malls, Premium Outlets, and The Mills rely heavily upon anchor tenants to attract customers; however, anchor retailers do not contribute materially to our financial results as many anchor retailers own their spaces. All material operations are within the United States and no customer or tenant accounts for 5% or more of our consolidated revenues.

9. Real Estate Acquisitions and Dispositions

During the first three months of 2018, we recorded net gains of \$135.3 million primarily related to disposition activity which included the foreclosure of a consolidated property in satisfaction of its \$200 million non-recourse mortgage.

Unless otherwise noted, gains and losses on the above transactions are included in gain upon acquisition of controlling interests, sale or disposal of assets and interests in unconsolidated entities and impairment, net in the accompanying consolidated statements of operations and comprehensive income. We capitalize asset acquisition costs and expense costs related to business combinations, as well as disposition related costs as they are incurred. We incurred a minimal amount of transaction expenses during the three months ended March 31, 2018 and 2017.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto included in this report.

Overview

Simon Property Group, Inc. is a Delaware corporation that operates as a self-administered and self-managed real estate investment trust, or REIT, under the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code. REITs will generally not be liable for U.S. federal corporate income taxes as long as they distribute not less than 100% of their REIT taxable income. Simon Property Group, L.P. is our majority-owned Delaware partnership subsidiary that owns all of our real estate properties and other assets. Unless stated otherwise or the context otherwise requires, references to "Simon" mean Simon Property Group, Inc. and references to the "Operating Partnership" mean Simon Property Group, L.P. References to "we," "us" and "our" mean collectively Simon, the Operating Partnership and those entities/subsidiaries owned or controlled by Simon and/or the Operating Partnership. According to the Operating Partnership's partnership agreement, the Operating Partnership is required to pay all expenses of Simon.

We own, develop and manage premier shopping, dining, entertainment and mixed-use destinations, which consist primarily of malls, Premium Outlets®, and The Mills®. As of March 31, 2018, we owned or held an interest in 206 income-producing properties in the United States, which consisted of 107 malls, 68 Premium Outlets, 14 Mills, four lifestyle centers, and 13 other retail properties in 37 states and Puerto Rico. In addition, we have redevelopment and expansion projects, including the addition of anchors, big box tenants, and restaurants, underway at 28 properties in the United States, Canada and Asia. We have one outlet under development. Internationally, as of March 31, 2018, we had ownership interests in nine Premium Outlets in Japan, four Premium Outlets in South Korea, two Premium Outlets in Canada, two Premium Outlets in Malaysia and one Premium Outlet in Mexico. We also own an interest in eight Designer Outlet properties in Europe, of which six properties are consolidated, and one Designer Outlet property in Canada. Of the eight properties in Europe, two are located in Italy, two are located in the Netherlands and one each is located in Austria, Germany, France and the United Kingdom. We also have four international outlet properties under development. As of March 31, 2018, we also owned a 21.1% equity stake in Klépierre SA, or Klépierre, a publicly traded, Paris-based real estate company which owns, or has an interest in, shopping centers located in 16 countries in Europe.

We generate the majority of our revenues from leases with retail tenants including:

- base minimum rents,
- overage and percentage rents based on tenants' sales volumes, and
- recoverable expenditures such as property operating, real estate taxes, repair and maintenance, and advertising and promotional expenditures.

Revenues of our management company, after intercompany eliminations, consist primarily of management fees that are typically based upon the revenues of the property being managed.

We invest in real estate properties to maximize total financial return which includes both operating cash flows and capital appreciation. We seek growth in earnings, funds from operations, or FFO, and cash flows by enhancing the profitability and operation of our properties and investments. We seek to accomplish this growth through the following:

- attracting and retaining high quality tenants and utilizing economies of scale to reduce operating expenses,
- expanding and re-tenanting existing highly productive locations at competitive rental rates,
- selectively acquiring or increasing our interests in high quality real estate assets or portfolios of assets,
- generating consumer traffic in our retail properties through marketing initiatives and strategic corporate alliances, and
- selling selective non-core assets.

We also grow by generating supplemental revenues from the following activities:

- establishing our malls as leading market resource providers for retailers and other businesses and consumer-focused corporate alliances, including payment systems (such as handling fees relating to the sales of bank-issued prepaid cards), national marketing alliances, static and digital media initiatives, business development, sponsorship, and events,

- offering property operating services to our tenants and others, including waste handling and facility services, and the provision of energy services,
- selling or leasing land adjacent to our properties, commonly referred to as “outlots” or “outparcels,” and
- generating interest income on cash deposits and investments in loans, including those made to related entities.

We focus on high quality real estate across the retail real estate spectrum. We expand or redevelop properties to enhance profitability and market share of existing assets when we believe the investment of our capital meets our risk-reward criteria. We selectively develop new properties in markets we believe are not adequately served by existing retail outlet properties.

We routinely review and evaluate acquisition opportunities based on their ability to enhance our portfolio. Our international strategy includes partnering with established real estate companies and financing international investments with local currency to minimize foreign exchange risk.

To support our growth, we employ a three-fold capital strategy:

- provide the capital necessary to fund growth,
- maintain sufficient flexibility to access capital in many forms, both public and private, and
- manage our overall financial structure in a fashion that preserves our investment grade credit ratings.

We consider FFO, net operating income, or NOI, portfolio NOI and comparable property NOI (NOI for properties owned and operated in both periods under comparison) to be key measures of operating performance that are not specifically defined by accounting principles generally accepted in the United States, or GAAP. We use these measures internally to evaluate the operating performance of our portfolio and provide a basis for comparison with other real estate companies. Reconciliations of these measures to the most comparable GAAP measure are included below in this discussion.

Results Overview

Diluted earnings per share and diluted earnings per unit increased \$0.47 during the first three months of 2018 to \$2.00 from \$1.53 for the same period last year. The increase in diluted earnings per share and diluted earnings per unit was primarily attributable to:

- improved operating performance and solid core business fundamentals in 2018 and the impact of our acquisition and expansion activity,
- 2018 net gains primarily related to disposition activity of \$135.3 million, or \$0.38 per diluted share/unit,
- increased consolidated lease settlement activity in 2018 of \$18.8 million, or \$0.05 per diluted share/unit, and
- increased income related to distributions from an international investment in 2018 of \$20.2 million, or \$0.06 per diluted share/unit, partially offset by
- increased interest expense in 2018 of \$7.3 million, or \$0.02 per diluted share/unit.

Solid core business fundamentals during the first three months of 2018 were primarily driven by strong leasing activity. Portfolio NOI grew by 4.8% for the three month period in 2018 over the prior year period. Comparable property NOI grew 2.3% for our portfolio of U.S. Malls, Premium Outlets, and The Mills. Total sales per square foot, or psf, increased from \$615 psf at March 31, 2017 to \$641 psf, or 4.2%, at March 31, 2018, for our U.S. Malls and Premium Outlets. Average base minimum rent for U.S. Malls and Premium Outlets increased 3.2% to \$53.54 psf as of March 31, 2018, from \$51.87 psf as of March 31, 2017. Leasing spreads in our U.S. Malls and Premium Outlets were favorable as we were able to lease available square feet at higher rents, resulting in an open/close leasing spread (based on total tenant payments — base minimum rent plus common area maintenance) of \$8.45 psf (\$75.77 openings compared to \$67.32 closings) as of March 31, 2018, representing a 12.6% increase. Ending occupancy for our U.S. Malls and Premium Outlets decreased 1.0% to 94.6% as of March 31, 2018, from 95.6% as of March 31, 2017.

Our effective overall borrowing rate at March 31, 2018 on our consolidated indebtedness decreased nine basis points to 3.31% as compared to 3.40% at March 31, 2017. This reduction was primarily due to a decrease in the effective overall borrowing rate on fixed rate debt of 10 basis points (3.37% at March 31, 2018 as compared to 3.47% at March 31, 2017) partially offset by an increase in the effective overall borrowing rate on variable rate debt of 35 basis points (2.32%

at March 31, 2018 as compared to 1.97% at March 31, 2017). The weighted average years to maturity of our consolidated indebtedness was 7.0 years at March 31, 2018 and December 31, 2017, respectively. Our financing activity for the three months ended March 31, 2018 included:

- Decreasing our borrowings under the Operating Partnership's global unsecured commercial paper note program, or the Commercial Paper program, by \$129.8 million through the issuance of U.S. dollar denominated notes.
- Redeeming at par \$750.0 million of senior unsecured notes with a fixed interest rate of 1.50% on January 3, 2018.

United States Portfolio Data

The portfolio data discussed in this overview includes the following key operating statistics: ending occupancy, average base minimum rent per square foot, and total sales per square foot for our domestic assets. We include acquired properties in this data beginning in the year of acquisition and remove disposed properties in the year of disposition. For comparative purposes, we separate the information related to The Mills from our other U.S. operations. We also do not include any information for properties located outside the United States.

The following table sets forth these key operating statistics for:

- properties that are consolidated in our consolidated financial statements,
- properties we account for under the equity method of accounting as joint ventures, and
- the foregoing two categories of properties on a total portfolio basis.

(1) Percentages may not recalculate due to rounding. Percentage and basis point changes are representative of the change from the comparable prior period.

Ending Occupancy Levels and Average Base Minimum Rent per Square Foot. Ending occupancy is the percentage of gross leasable area, or GLA, which is leased as of the last day of the reporting period. We include all company owned space except for mall anchors, mall majors, mall freestanding and mall outlots in the calculation. Base minimum rent per square foot is the average base minimum rent charge in effect for the reporting period for all tenants that would qualify to be included in ending occupancy.

Total Sales per Square Foot. Total sales include total reported retail tenant sales on a trailing 12-month basis at owned GLA (for mall stores with less than 10,000 square feet) in the malls and The Mills and stores with less than

20,000 square feet in the Premium Outlets. Retail sales at owned GLA affect revenue and profitability levels because sales determine the amount of minimum rent that can be charged, the percentage rent realized, and the recoverable expenses (common area maintenance, real estate taxes, etc.) that tenants can afford to pay.

Current Leasing Activities

During the three months ended March 31, 2018, we signed 182 new leases and 278 renewal leases (excluding mall anchors and majors, new development, redevelopment and leases with terms of one year or less) with a fixed minimum rent across our U.S. Malls and Premium Outlets portfolio, comprising approximately 1.7 million square feet, of which 1.5 million square feet related to consolidated properties. During the comparable period in 2017, we signed 204 new leases and 399 renewal leases with a fixed minimum rent, comprising approximately 1.9 million square feet, of which 1.4 million square feet related to consolidated properties. The average annual initial base minimum rent for new leases was \$54.88 per square foot in 2018 and \$67.01 per square foot in 2017 with an average tenant allowance on new leases of \$46.63 per square foot and \$46.05 per square foot, respectively.

Japan Data

The following are selected key operating statistics for our Premium Outlets in Japan. The information used to prepare these statistics has been supplied by the managing venture partner.

Results of Operations

The following acquisitions, dispositions and openings of consolidated properties affected our consolidated results in the comparative periods:

- During the three months ended March 31, 2018, we disposed of one retail property.
- On April 21, 2017, through our European investee, we acquired Rosada Designer Outlet, a 247,500 square foot center in Roosendaal, Netherlands. We have a 94% interest in this new center.
- On April 13, 2017, through our European investee, we opened Provence Designer Outlet, a 269,000 square foot center in Miramas, France. We have a 90% interest in this new center.

The following dispositions and openings of joint venture properties affected our income from unconsolidated entities in the comparative periods:

- During 2017, we disposed of our interests in one retail property.
- On September 14, 2017, we and our partner opened The Shops at Clearfork, a 500,000 square foot center in Fort Worth, Texas. We have a 45% noncontrolling interest in this new center.
- On June 29, 2017, we and our partner opened Norfolk Premium Outlets, a 332,000 square foot center in Norfolk, Virginia. We have a 65% noncontrolling interest in this new center.
- On June 15, 2017, we and our partner opened Genting Highlands Premium Outlets in Kuala Lumpur, Malaysia. We have a 50% noncontrolling interest in this 278,000 square foot center.
- On April 6, 2017, we and our partner opened Siheung Premium Outlets, a 444,400 square foot center in Siheung (Seoul), South Korea. We have a 50% noncontrolling interest in this new center.

For the purposes of the following comparison between the three months ended March 31, 2018 and 2017, the above transactions are referred to as the property transactions. In the following discussions of our results of operations, "comparable" refers to properties we owned or held interests in and operated in both of the periods under comparison.

During the third quarter of 2017, two of our wholly-owned properties located in Puerto Rico sustained significant

damage as a result of Hurricane Maria. For purposes of the below comparisons, these properties are also included in the property transactions due to the fact they were not open for business during the entirety of the periods being compared.

Three months ended March 31, 2018 vs. Three months ended March 31, 2017

Minimum rents increased \$13.4 million during 2018, of which the comparable rents increased \$15.3 million, or 1.9%, primarily attributable to an increase in base minimum rents, offset partially by a \$1.9 million decrease related to the property transactions. Overage rents increased \$4.8 million, or 17.0%, as a result of an increase in tenant sales.

Total other income increased \$36.8 million, primarily due to a \$20.2 million increase in income related to distributions from an international investment, an \$18.8 million increase in lease settlement income and a \$2.2 million increase in Simon Brand Venture revenues, partially offset by a \$4.9 million decrease related to non-retail real estate sales recorded in 2017.

Property operating expense increased \$9.4 million, with the international property transactions accounting for \$1.9 million of the increase. The comparable properties increased \$7.5 million as a result of increased utility expenses due to the harsh winter, as well as increased personnel costs.

Real estate taxes increased \$7.5 million as a result of lower refunds received in 2018 as compared to 2017.

Other expense increased \$7.7 million primarily related to a \$3.0 million mark-to-market adjustment on an equity instrument with a readily available fair value required as a result of the adoption of a new accounting pronouncement, and an increase in legal fees and expenses of \$2.1 million.

Income and other taxes increased \$9.7 million due to a lower tax benefit from improved performance and a lower tax rate on our share of results in the retail operations venture of Aéropostale as compared to 2017, and increased withholding and income taxes related to certain of our international investments.

Income from unconsolidated entities increased \$20.9 million primarily due to the stronger operations of the retail operations venture of Aéropostale of \$8.6 million and favorable results of operations from our international joint venture investments and our acquisition and development activity.

During 2018, we recorded net gains of \$135.3 million primarily related to our disposition activity.

Simon's net income attributable to noncontrolling interests increased \$21.5 million due to an increase in the net income of the Operating Partnership.

Liquidity and Capital Resources

Because we own long-lived income-producing assets, our financing strategy relies primarily on long-term fixed rate debt. Floating rate debt comprised only 4.9% of our total consolidated debt at March 31, 2018. We also enter into interest rate protection agreements from time to time to manage our interest rate risk. We derive most of our liquidity from positive net cash flow from operations and distributions of capital from unconsolidated entities that totaled \$912.8 million in the aggregate during the three months ended March 31, 2018. The Operating Partnership has a \$4.0 billion unsecured revolving credit facility, or Credit Facility, and a \$3.5 billion supplemental unsecured revolving credit facility, or Supplemental Facility, and together with the Credit Facility, the Credit Facilities. The Credit Facilities and the Commercial Paper program provide alternative sources of liquidity as our cash needs vary from time to time. Borrowing capacity under these sources may be increased as discussed further below.

Our balance of cash and cash equivalents decreased \$1.1 billion during the first three months of 2018 to \$367.2 million as of March 31, 2018 as further discussed in "Cash Flows" below.

On March 31, 2018, we had an aggregate available borrowing capacity of approximately \$6.3 billion under the Credit Facilities, net of outstanding borrowings of \$334.5 million and amounts outstanding under the Commercial Paper program of \$848.6 million and letters of credit of \$6.2 million. For the three months ended March 31, 2018, the maximum aggregate outstanding balance under the Credit Facilities was \$423.1 million and the weighted average outstanding balance was \$334.8 million. The weighted average interest rate was 1.30% for the three months ended March 31, 2018.

Simon has historically had access to public equity markets and the Operating Partnership has historically had access to private and public long and short-term unsecured debt markets and access to secured debt and private equity from institutional investors at the property level.

Our business model and Simon's status as a REIT require us to regularly access the debt markets to raise funds

for acquisition, development and redevelopment activity, and to refinance maturing debt. Simon may also, from time to time, access the equity capital markets to accomplish our business objectives. We believe we have sufficient cash on hand and availability under the Credit Facilities and the Commercial Paper program to address our debt maturities and capital needs through 2018.

Cash Flows

Our net cash flow from operating activities and distributions of capital from unconsolidated entities for the three months ended March 31, 2018 totaled \$912.8 million. In addition, we had net repayments from our debt financing and repayment activities of \$893.9 million in 2018. These activities are further discussed below under “Financing and Debt.” During the first three months of 2018, we also:

- paid stockholder dividends and unitholder distributions totaling approximately \$698.1 million and preferred unit distributions totaling \$1.3 million,
- funded consolidated capital expenditures of \$172.8 million (including development and other costs of \$14.0 million, redevelopment and expansion costs of \$96.3 million, and tenant costs and other operational capital expenditures of \$62.5 million),
- funded investments in unconsolidated entities of \$10.9 million, and
- funded the repurchase of \$227.9 million of Simon’s common stock and the redemption of \$6.3 million of the Operating Partnership’s units.

In general, we anticipate that cash generated from operations will be sufficient to meet operating expenses, monthly debt service, recurring capital expenditures, and dividends to stockholders and/or distributions to partners necessary to maintain Simon’s REIT qualification on a long-term basis. In addition, we expect to be able to generate or obtain capital for nonrecurring capital expenditures, such as acquisitions, major building redevelopments and expansions, as well as for scheduled principal maturities on outstanding indebtedness, from:

- excess cash generated from operating performance and working capital reserves,
- borrowings on the Credit Facilities and Commercial Paper program,
- additional secured or unsecured debt financing, or
- additional equity raised in the public or private markets.

We expect to generate positive cash flow from operations in 2018, and we consider these projected cash flows in our sources and uses of cash. These cash flows are principally derived from rents paid by our tenants. A significant deterioration in projected cash flows from operations could cause us to increase our reliance on available funds from the Credit Facilities and Commercial Paper program, curtail planned capital expenditures, or seek other additional sources of financing as discussed above.

Financing and Debt

Unsecured Debt

At March 31, 2018, our unsecured debt consisted of \$15.8 billion of senior unsecured notes of the Operating Partnership, \$334.5 million outstanding under the Operating Partnership’s Credit Facility, and \$848.6 million outstanding under the Operating Partnership’s Commercial Paper program. The March 31, 2018 balance on the Credit Facility included \$209.5 million (U.S. dollar equivalent) of Yen-denominated borrowings. Foreign currency denominated borrowings under the Credit Facility are designated as net investment hedges of a portion of our international investments.

On March 31, 2018, we had an aggregate available borrowing capacity of \$6.3 billion under the Credit Facilities. The maximum aggregate outstanding balance under the Credit Facilities during the three months ended March 31, 2018 was \$423.1 million and the weighted average outstanding balance was \$334.8 million. Letters of credit of \$6.2 million were outstanding under the Credit Facilities as of March 31, 2018.

The Credit Facility’s initial borrowing capacity of \$4.0 billion may be increased to \$5.0 billion during its term and provides for borrowings denominated in U.S. dollars, Euro, Yen, Sterling, Canadian dollars and Australian dollars. Borrowings in currencies other than the U.S. dollar are limited to 95% of the maximum revolving credit amount, as defined. The initial maturity date of the Credit Facility is June 30, 2021 and can be extended for an additional year to June 30, 2022

at our sole option, subject to our continued compliance with the terms thereof. The base interest rate on the Credit Facility is LIBOR plus 77.5 basis points with a facility fee of 10 basis points.

On February 15, 2018, the Operating Partnership amended and extended the Supplemental Facility. The Supplemental Facility's initial borrowing capacity of \$3.5 billion may be increased to \$4.5 billion during its term and provides for borrowings denominated in U.S. dollars, Euro, Yen, Sterling, Canadian dollars and Australian dollars. The initial maturity date of the Supplemental Facility was extended to June 30, 2022 and can be extended for an additional year to June 30, 2023 at our sole option, subject to our continued compliance with the terms thereof. The base interest rate on the Supplemental Facility was reduced to LIBOR plus 77.5 basis points from LIBOR plus 80 basis points, with a facility fee of 10 basis points.

The Operating Partnership also has available a Commercial Paper program of \$1.0 billion, or the non-U.S. dollar equivalent thereof. The Operating Partnership may issue unsecured commercial paper notes, denominated in U.S. dollars, Euro and other currencies. Notes issued in non-U.S. currencies may be issued by one or more subsidiaries of the Operating Partnership and are guaranteed by the Operating Partnership. Notes will be sold under customary terms in the U.S. and Euro commercial paper note markets and rank (either by themselves or as a result of the guarantee described above) pari passu with the Operating Partnership's other unsecured senior indebtedness. The Commercial Paper program is supported by the Credit Facilities and if necessary or appropriate, we may make one or more draws under either of the Credit Facilities to pay amounts outstanding from time to time on the Commercial Paper program. On March 31, 2018, we had \$848.6 million outstanding under the Commercial Paper program, fully comprised of U.S. dollar-denominated notes with a weighted average interest rate of 1.72%. These borrowings mature on various dates through May 23, 2018 and reduce amounts otherwise available under the Credit Facilities.

On January 3, 2018, the Operating Partnership redeemed at par \$750.0 million of senior unsecured notes with a fixed interest rate of 1.50%.

Mortgage Debt

Total mortgage indebtedness was \$6.7 billion and \$6.9 billion at March 31, 2018 and December 31, 2017, respectively.

Covenants

Our unsecured debt agreements contain financial covenants and other non-financial covenants. If we were to fail to comply with these covenants, after the expiration of the applicable cure periods, the debt maturity could be accelerated or other remedies could be sought by the lender, including adjustments to the applicable interest rate. As of March 31, 2018, we were in compliance with all covenants of our unsecured debt.

At March 31, 2018, we or our subsidiaries were the borrowers under 47 non-recourse mortgage notes secured by mortgages on 50 properties, including two separate pools of cross-defaulted and cross-collateralized mortgages encumbering a total of five properties. Under these cross-default provisions, a default under any mortgage included in the cross-defaulted pool may constitute a default under all mortgages within that pool and may lead to acceleration of the indebtedness due on each property within the pool. Certain of our secured debt instruments contain financial and other non-financial covenants which are specific to the properties that serve as collateral for that debt. If the applicable borrower under these non-recourse mortgage notes were to fail to comply with these covenants, the lender could accelerate the debt and enforce its rights against their collateral. At March 31, 2018, the applicable borrowers under these non-recourse mortgage notes were in compliance with all covenants where non-compliance could individually or in the aggregate, giving effect to applicable cross-default provisions, have a material adverse effect on our financial condition, liquidity or results of operations.

Summary of Financing

Our consolidated debt, adjusted to reflect outstanding derivative instruments, and the effective weighted average interest rates as of March 31, 2018 and December 31, 2017, consisted of the following (dollars in thousands):

Debt Subject to	Adjusted Balance as of March 31, 2018	Effective Weighted Average Interest Rate ⁽¹⁾	Adjusted Balance as of December 31, 2017	Effective Weighted Average Interest Rate ⁽¹⁾
Fixed Rate	\$ 22,365,690	3.37%	\$ 23,374,732	3.30%
Variable Rate	1,213,513	2.32%	1,189,311	2.19%
	<u>\$ 23,579,203</u>	<u>3.31%</u>	<u>\$ 24,564,043</u>	<u>3.25%</u>

(1) Effective weighted average interest rate excludes the impact of net discounts, debt issuance costs and other debt obligations of \$68.2 million.

Contractual Obligations

There have been no material changes to our outstanding capital expenditure and lease commitments previously disclosed in the combined 2017 Annual Reports on Form 10-K of Simon and the Operating Partnership.

In regards to long-term debt arrangements, the following table summarizes the material aspects of these future obligations on our consolidated indebtedness as of March 31, 2018, for the remainder of 2018 and subsequent years thereafter (dollars in thousands), assuming the obligations remain outstanding through initial maturities, including applicable exercise of available extension options:

	2018	2019 - 2020	2021 - 2022	After 2022	Total
Long Term Debt (1) (2)	\$ 968,108	\$ 2,914,362	\$ 7,063,615	\$ 12,780,255	\$ 23,726,340
Interest Payments (3)	623,722	1,607,200	1,205,856	3,192,485	6,629,263

(1) Represents principal maturities only and, therefore, excludes net discounts and debt issuance costs.

(2) The amount due in 2018 includes \$848.6 million in Global Commercial Paper – USD.

(3) Variable rate interest payments are estimated based on the LIBOR rate at March 31, 2018.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements consist primarily of our investments in joint ventures which are common in the real estate industry and are described in Note 5 of the condensed notes to our consolidated financial statements. Our joint ventures typically fund their cash needs through secured debt financings obtained by and in the name of the joint venture entity. The joint venture debt is secured by a first mortgage, is without recourse to the joint venture partners, and does not represent a liability of the partners, except to the extent the partners or their affiliates expressly guarantee the joint venture debt. As of March 31, 2018, the Operating Partnership guaranteed joint venture-related mortgage indebtedness of \$207.0 million (of which we have a right of recovery from our joint venture partners of \$10.8 million as of March 31, 2018). Mortgages guaranteed by the Operating Partnership are secured by the property of the joint venture which could be sold in order to satisfy the outstanding obligation and which has an estimated fair value in excess of the guaranteed amount. We may elect to fund cash needs of a joint venture through equity contributions (generally on a basis proportionate to our ownership interests), advances or partner loans, although such fundings are not typically required contractually or otherwise.

Acquisitions and Dispositions

Buy-sell, marketing rights, and other exit mechanisms are common in real estate partnership agreements. Most of our partners are institutional investors who have a history of direct investment in retail real estate. We and our partners in our joint venture properties may initiate these provisions (subject to any applicable lock up or similar restrictions). If we determine it is in our stockholders' best interests for us to purchase the joint venture interest and we believe we have adequate liquidity to execute the purchase without hindering our cash flows, then we may initiate these provisions or elect

to buy our partner's interest. If we decide to sell any of our joint venture interests, we expect to use the net proceeds to reduce outstanding indebtedness or to reinvest in development, redevelopment, or expansion opportunities.

Dispositions. We may continue to pursue the disposition of properties that no longer meet our strategic criteria or that are not a primary retail venue within their trade area.

During the first three months of 2018, we recorded net gains of \$135.3 million primarily related to disposition activity which included the foreclosure of a consolidated property in satisfaction of its \$200 million non-recourse mortgage. As discussed in Note 5, Klépierre also disposed of its interests in certain shopping centers resulting in a gain of which our share was \$13.4 million.

Development Activity

We routinely incur costs related to construction for significant redevelopment and expansion projects at our properties. Redevelopment and expansion projects, including the addition of anchors, big box tenants, and restaurants, are underway at 28 properties in the United States, Canada and Asia.

Our share of the costs of all new development, redevelopment and expansion projects currently under construction is approximately \$0.7 billion. We expect to fund these capital projects with cash flows from operations. We seek a stabilized return on invested capital in the range of 7-10% for all of our new development, expansion and redevelopment projects.

New Domestic Developments, Redevelopments and Expansions.

During 2018, construction continues on Denver Premium Outlets, a 328,000 square foot project in Thornton (Denver), Colorado, which is scheduled to open in September 2018. We own a 100% interest in this project. The estimated cost of this project is \$120.6 million.

International Development Activity. We typically reinvest net cash flow from our international joint ventures to fund future international development activity. We believe this strategy mitigates some of the risk of our initial investment and our exposure to changes in foreign currencies. We have also funded most of our foreign investments with local currency-denominated borrowings that act as a natural hedge against fluctuations in exchange rates. Our consolidated net income exposure to changes in the volatility of the Euro, Yen, Won, and other foreign currencies is not material. We expect our share of international development costs for 2018 will be approximately \$234 million, primarily funded through reinvested joint venture cash flow and construction loans.

The following table describes these new development and expansion projects as well as our share of the estimated total cost as of March 31, 2018 (in millions):

Dividends, Distributions and Stock Repurchase Program

Simon paid a common stock dividend of \$1.95 per share in the first quarter of 2018 and \$1.75 per share in the first quarter of 2017. The Operating Partnership paid distributions per unit for the same amounts. Simon's Board of Directors declared a quarterly cash dividend for the second quarter of 2018 of \$1.95 per share of common stock payable on May 31, 2018 to stockholders of record on May 17, 2018. The distribution rate on units is equal to the dividend rate on common stock. In order to maintain its status as a REIT, Simon must pay a minimum amount of dividends. Simon's future dividends and the Operating Partnership's future distributions will be determined by Simon's Board of Directors, in its sole discretion, based on actual and projected financial condition, liquidity and results of operations, cash available for dividends and limited partner distributions, cash reserves as deemed necessary for capital and operating expenditures, financing covenants, if any, and the amount required to maintain Simon's status as a REIT.

On February 13, 2017, Simon's Board of Directors authorized a two-year extension of the previously authorized \$2.0 billion common stock repurchase plan through March 31, 2019. Simon may repurchase the shares in the open market or in privately negotiated transactions as market conditions warrant. During the three months ended March 31, 2018, Simon repurchased 1,473,588 shares at an average price of \$154.66 per share of its common stock as part of this program. As Simon repurchases shares under this program, the Operating Partnership repurchases an equal number of units from Simon.

Forward-Looking Statements

Certain statements made in this section or elsewhere in this Quarterly Report on Form 10-Q may be deemed "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be attained, and it is possible that our actual results may differ materially from those indicated by these forward-looking statements due to a variety of risks, uncertainties and other factors. Such factors include, but are not limited to: changes in economic and market conditions that may adversely affect the general retail environment; the potential loss of anchor stores or major tenants; the inability to collect rent due to the bankruptcy or insolvency of tenants or otherwise; decreases in market rental rates; the intensely competitive market environment in the retail industry; the inability to lease newly developed properties and renew leases and relet space at existing properties on favorable terms; risks related to international activities, including, without limitation, the impact of the United Kingdom's vote to leave the European Union; changes to applicable laws or regulations or the interpretation thereof; risks associated with the acquisition, development, redevelopment, expansion, leasing and management of properties; general risks related to real estate investments, including the illiquidity of real estate investments; the impact of our substantial indebtedness on our future operations; any disruption in the financial markets that may adversely affect our ability to access capital for growth and satisfy our ongoing debt service requirements; any change in our credit rating; changes in market rates of interest and foreign exchange rates for foreign currencies; changes in the value of our investments in foreign entities; our ability to hedge interest rate and currency risk; our continued ability to maintain our status as a REIT; changes in tax laws or regulations that result in adverse tax consequences; risks relating to our joint venture properties; environmental liabilities; changes in insurance costs, the availability of comprehensive insurance coverage; security breaches that could compromise our information technology or infrastructure; natural disasters; the potential for terrorist activities; and the loss of key management personnel. We discussed these and other risks and uncertainties under the heading "Risk Factors" in the combined 2017 Annual Report on Form 10-K of Simon and the Operating Partnership. We may update that discussion in subsequent other periodic reports, but, except as required by law, we undertake no duty or obligation to update or revise these forward-looking statements, whether as a result of new information, future developments, or otherwise.

Non-GAAP Financial Measures

Industry practice is to evaluate real estate properties in part based on performance measures such as FFO, diluted FFO per share, NOI, portfolio NOI and comparable property NOI. We believe that these non-GAAP measures are helpful to investors because they are widely recognized measures of the performance of REITs and provide a relevant basis for comparison among REITs. We also use these measures internally to measure the operating performance of our portfolio.

We determine FFO based on the definition set forth by the National Association of Real Estate Investment Trusts, or NAREIT, as consolidated net income computed in accordance with GAAP:

- excluding real estate related depreciation and amortization,
- excluding gains and losses from extraordinary items and cumulative effects of accounting changes,

- excluding gains and losses from the sales or disposals of previously depreciated retail operating properties,
- excluding impairment charges of depreciable real estate,
- plus the allocable portion of FFO of unconsolidated entities accounted for under the equity method of accounting based upon economic ownership interest, and
- all determined on a consistent basis in accordance with GAAP.

We have adopted NAREIT's clarification of the definition of FFO that requires us to include the effects of nonrecurring items not classified as extraordinary, cumulative effect of accounting changes, or a gain or loss resulting from the sale or disposal of, or any impairment related to, previously depreciated retail operating properties.

We include in FFO gains and losses realized from the sale of land, outlot buildings, equity instruments, and investment holdings of non-retail real estate. We also include in FFO the impact of foreign currency exchange gains and losses, legal expenses, transaction expenses and other items required by GAAP.

You should understand that our computations of these non-GAAP measures might not be comparable to similar measures reported by other REITs and that these non-GAAP measures:

- do not represent cash flow from operations as defined by GAAP,
- should not be considered as alternatives to consolidated net income determined in accordance with GAAP as a measure of operating performance, and
- are not alternatives to cash flows as a measure of liquidity.

The following schedule reconciles total FFO to consolidated net income and, for Simon, diluted net income per share to diluted FFO per share.

(3) Includes total property NOI for properties undergoing redevelopment as well as incremental NOI for expansion properties not yet included in comparable properties.

(4) Includes Malls, Premium Outlets, The Mills and Lifestyle Centers opened and operating as comparable for the period.

Item 3. Qualitative and Quantitative Disclosures About Market Risk

Sensitivity Analysis. We disclosed a qualitative and quantitative analysis regarding market risk in Management's Discussion and Analysis of Financial Condition and Results of Operations included in the combined 2016 Annual Report on Form 10-K of Simon and the Operating Partnership. There have been no material changes in the assumptions used or results obtained regarding market risk since December 31, 2017.

Item 4. Controls and Procedures

Simon

Evaluation of Disclosure Controls and Procedures. Simon maintains disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) that are designed to provide reasonable assurance that information required to be disclosed in the reports that Simon files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's, or the SEC's, rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures. Because of inherent limitations, disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of disclosure controls and procedures are met.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of Simon's disclosure controls and procedures as of March 31, 2018. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2018, Simon's disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control Over Financial Reporting. There have not been any changes in Simon's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the quarter ended March 31, 2018 that have materially affected, or are reasonably likely to materially affect, Simon's internal control over financial reporting.

The Operating Partnership

Evaluation of Disclosure Controls and Procedures. The Operating Partnership maintains disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that are designed to provide reasonable assurance that information required to be disclosed in the reports that the Operating Partnership files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures. Because of inherent limitations, disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of disclosure controls and procedures are met.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Operating Partnership's disclosure controls and procedures as of March 31, 2018. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2018, the Operating Partnership's disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control Over Financial Reporting. There have not been any changes in the Operating Partnership's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the quarter ended March 31, 2018 that have materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

Part II — Other Information

Item 1. Legal Proceedings

We are involved from time-to-time in various legal and regulatory proceedings that arise in the ordinary course of our business, including, but not limited to, commercial disputes, environmental matters, and litigation in connection with transactions such as acquisitions and divestitures. We believe that our current proceedings will not have a material adverse effect on our financial condition, liquidity or results of operations. We record a liability when a loss is considered probable, and the amount can be reasonably estimated.

Item 1A. Risk Factors

Through the period covered by this report, there were no material changes to the Risk Factors disclosed under Item 1A. Risk Factors in Part I of the combined 2017 Annual Report on Form 10-K of Simon and the Operating Partnership.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Simon

Unregistered Sales of Equity Securities

During the quarter ended March 31, 2018, we issued 6,000 shares of common stock on January 11, 2018 to a limited partner of the Operating Partnership in exchange for an equal number of units pursuant to the partnership agreement of the Operating Partnership. The issuance of shares of common stock was exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended.

Issuer Purchases of Equity Securities

(1) Total number of shares purchased primarily represents shares withheld by us and transferred to treasury shares in connection with employee payroll tax withholding upon the vesting of certain restricted stock awards.

(2) On February 13, 2017, Simon's Board of Directors authorized a two-year extension of the previously authorized \$2.0 billion common stock repurchase plan through March 31, 2019. Simon may repurchase the shares in the open market or in privately negotiated transactions as market conditions warrant.

The Operating Partnership

Unregistered Sales of Equity Securities

There were no unregistered sales of equity securities made by the Operating Partnership during the quarter ended March 31, 2018.

Issuer Purchases of Equity Securities

There were no purchases of equity securities made by the Operating Partnership during the quarter ended March 31, 2018.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

During the quarter covered by this report, the Audit Committee of Simon's Board of Directors approved certain audit, audit-related, and non-audit tax compliance and tax consulting services to be provided by Ernst & Young LLP, our independent registered public accounting firm. This disclosure is made pursuant to Section 10A(i)(2) of the Exchange Act as added by Section 202 of the Sarbanes-Oxley Act of 2002.
